CALIFORNIA PLANE IS STILL UP

NEGOTIATIONS ARE CONTINUED IN NEW ORLEANS CAR ROW

FEDERAL MARSHAL SAYS SERVICE MAY BE RESUMED SATURDAY

NEW ORLEANS, July 11.—(AP)—While negotiations strove for a truce in the street car strike, United States Marshal Victor Lohle announced he would attempt to have street cars operated either Saturday or Sunday under protection of United States deputies and by authority of a federal injunction recently granted.

The marshal said he did not anticipate violence from the strikers, but he was prepared to protect the company's property against last week during riots caused by operation of cars by strike breakers. All quarters were quiet today.

Civil and government negotiations carried on conferences, hoping to arrive at a sign of strike settlement.

Meeting Is Postponed.

NEW ORLEANS, July 11.—(AP)—The street car strike has moved a step forward toward arbitration today with the calling off of a labor mass meeting and announcement by New Orleans Public Service, Inc., that its board of directors would meet citizens mediation workers. The mass meeting of all Union labor in New Orleans had been called for tonight to consider the advisability of a general walk-out in sympathy with the carmen. The citizens committee hoped the company would modify its open shop stand and agree to arbitrate in the strike that has stalled the car system for ten days and caused loss of lives and property.

Labor executives advised the striking carmen to observe strictly all provisions of a federal injunction against further destruction of property or intimidation of workers. Victor Lohle, United States marshal, advised against premature efforts to operate cars. The first sentence for contempt of the injunction order was given by Judge Borah to Charles Englebrecht, who received 30 days in prison.

ADMIRALTY HALTS EFFORTS SALVAGE LOST SUBMARINE

BATTLESHIP WILL PAY TRIBUTE TO LOST SAILORS; ROUGH WEATHER

LONDON, July 11.—(AP)—The admiralty has decided to abandon all further operations for salvaging the sunken submarine H-47. Announcement of this was supplied by the statement that the task of salvaging the vessel had been reached after full consideration of the location of the lost warcraft and the difficulties in attempting to salvage it.

The admiralty statement says the facts which guided it in reaching this decision were that the vessel sank, and that the great depth of water, risk from tides and weather would render salvage even if an ultimate possibility—a task involving the divers and others in great and continual danger.

Even if the H-47 were salvaged, the statement adds, the damage through pressure and flooding would render her unfit for service, and salvage would not be justified.

The battleship Rodney, flying the flag of the rear admirals commanding the submarines and other vessels, will leave the vicinity where the H-47 sank and survey last respects to those who lost their lives.

Weather Very Rough

PEMBROKE, Mass., July 11.—(AP)—Weather in Saint George's channel today made immediately further rescue and salvage work above the sunken submarine H-47 all but impossible.

The extensive crews assembled for the almost vain attempt at lifting the submarine and possibly saving some of the 20 men entombed in it marked time impatiently, awaiting a change in the direction of the wind and a lessening of the high seas.

The salvage crew withdrew temporarily to Milford Haven, leaving a buoy moored above the spot where the ship slipped to after it had collided Tuesday with the L-12 and sank. The depth was believed to be 380 feet, far below the level at which divers ordinarily can work.

NEGRO SHOT BY POLICE

HOUSTON, July 11.—(AP)—An unidentified negro was shot to death here early today by Detective Dave Turner.

Turner and his partner, Hal Jamieson, said the negro tried to get away after they had stopped him. He grabbed Jamieson's pistol from his holster and struck the officer across the face with the barrel. Turner then fired once, and the negro fell.

Earlier Hour May Overcome Trouble At Boxing Bout

DALLAS, July 11.—(AP)—A serious drawback has developed in the plan to hold boxing matches just across the Rio Grande to circumvent the Texas anti-prize fight statute, according to the press agent for a program that was to have been held at Reynoso, Mexico, July 4.

The fights had been advertised extensively and the little border city was swarmed with people there for the purpose of witnessing it, says the ballyhoo artist, but the promoters made the mistake of setting the hour at 8 p. m. That gave the fans entirely too long to celebrate, and by the time the gates opened only about 1 per cent of them found their way to the arena.

It was postponed to July 21, and 4 p. m., will be the starting hour.

OLD FEUD BETWEEN CHINA AND SOVIET FIRES MANCHURIA

CHINESE CLAIM THAT PROPAGANDA IS BEING SPREAD; TAKE CONTROL RAILROAD

TOKYO, July 11.—(AP)—The long-standing feud between Northeastern China and Soviet Russia over control of the Manchurian unit of the Trans-Siberian Railway system has broken forth anew with what is regarded here as a definite Chinese move against the Russians.

Rengo News Agency dispatches from Harbin, Manchuria, said Gen. Chiang Kai-shek, governor of the Harbin district, yesterday arrested 174 Soviet officials and employees of the Chinese Eastern Railway. Thirty-seven of the prisoners were dispatched under guard to the Siberian border for deportation.

The dispatches interpreted the coup as having made a virtually unbreakable breach between China and the Soviet. Chinese directors who appointed the arrested Russians, the Chinese seizing every opening to undermine the Russian influence.

Among those arrested were the Russian chief director of railways and the director of the trading commission. All Russian banking and trading operations in Harbin were closed. Managing Director Emsharov and other highest officials among the Chinese Eastern Railway declared a general strike and the Chinese countered with wholesale arrests in Harbin and other stations on the road.

Chinese police headquarters issued a communique in which it was stated the raid May 27, on the Russian consulate general at Harbin, had uncovered evidence that the Russian government was plotting to take control of the railway.

WARNING IS GIVEN AGAINST REQUA PLAN OIL CONSERVATION

TULSA, Okla., July 11.—(AP)—Wirt Franklin, Ardmore oil man and president of the Independent Petroleum Association of America, sounded a warning here yesterday to editors of the nation not to accept Mark L. Requa's plan of conservation for the oil industry at its face value.

Mr. Franklin's warning was issued in response to a letter sent by Mr. Requa, presumably to every editor in the country, describing an act of conservation by "restraining drilling to meet the requirements" of the market.

"Whatever may be the ideas and objects behind Mr. Requa's plan, the result of it, if it were put into effect and carried out, would limit production in the United States to barely meet the market requirements that could not be met by the importation of foreign oil," Mr. Franklin said.

England Refuses Let Trotsky Enter Nation

LONDON, July 11.—(AP)—Home Secretary Clynnes announced in the house of commons today he had decided against allowing Leon Trotsky, exiled Communist leader, to visit Great Britain.

The newly formed Labor government had scarcely come into power last month when Trotsky, apparently hoping the Laborites would be more sympathetic to his request than the former Conservative government, asked Premier Ramsay MacDonald for authorization to visit England "for urgent medical treatment and scientific work." The matter was referred to the home secretary's department.

FIVE BURNED TO DEATH AS TRAINS CRASH THURSDAY

FAST PASSENGER TRAIN HIT TANK CAR SPREADING FLAMES WIDELY

CORNING, N. Y., July 11.—(AP)—Five persons were burned to death and a sixth may die, as the result of a fire which broke out after the east-bound Cleveland-New York express on the Erie railroad struck a freight train here today.

The locomotive of the passenger train ploughed into a tank car, the contents of which broke into flames the fire spreading rapidly to the baggage car, two mail cars and a passenger coach which had been derailed.

The dead were identified as Fred E. Blake of Hornell, engineer; W. J. Latonik, of Susquehanna, Pa., fireman; Railway Mail Clerk Henry N. Hurlbut, 3, of Arkport; and P. A. Fagen, 53, of Salamanca, and a wayfarer identified as Swan Berger, 38, of Moline, Ill.

Vaughn Rose of New York City, tentatively identified as a passenger in the derailed coach, was extricated from the wreckage and taken to Corning hospital so seriously burned he probably will die.

The passenger train left Corning at 12:35 a. m. and passed the westbound freight about three miles east of the city.

According to railroad officials the locomotives of the two trains were nearly abreast when the first tank car in the freight apparently buckled and left the rails. The passenger locomotive, traveling at a high speed, crashed into it and spread the tank car's inflammable contents over a wide area.

None of the freight car crew were injured.

After the collision nearly half the 50 cars in the freight train buckled and covered both tracks with blazing wreckage.

Alabama Girl Is Hurt, Escort Dead, Attacker a Negro

EUFULA, Ala., July 11.—(AP)—Jack Hines, 25, was killed instantly, and Miss Beatrice Clark, 18, his companion in an automobile, attacked and seriously injured north of here last night by a negro who escaped in Hines' automobile.

A verdict of murder and manslaughter was returned by a jury today. The victim was a negro. She reported receiving several blows on her head and arm. Attendants at a hospital said her arm was badly mutilated.

Both victims of the attacks are from prominent families here. A posse was organized.

FARMER KILLED WIFE AND SELF AFTER ARGUMENT

MONT BELVIEW, July 11.—(AP)—H. C. Smith, 40, fired three shots into the body of his wife, fatally wounding her, and then fired a fourth into his own breast today at their farm home two miles northwest of here today.

A verdict of murder and suicide was returned.

Smith had been plowing, and Mrs. Smith was at home washing. The farmer went to the house, and an argument started last night was resumed.

The man grabbed a pistol and fired three times as his wife ran toward the barn. Both bodies were found in the barn, Smith grasping his wife's hair with one hand and holding the pistol with the other.

Buddy, 11-year-old son, said he yelled to his father and tried to interfere. Another son, Virgil, had been sent to the field and told to finish the plowing.

The Smith family was well known in this section.

Julius A. Germany Died Dallas Home

DALLAS, July 11.—(AP)—Julius A. Germany, widely known lawyer, died at his home here today after an illness of about a month.

Mr. Germany was stricken while attending a celebration at Southwestern University, Georgetown, Texas, several weeks ago. He was 58 years old.

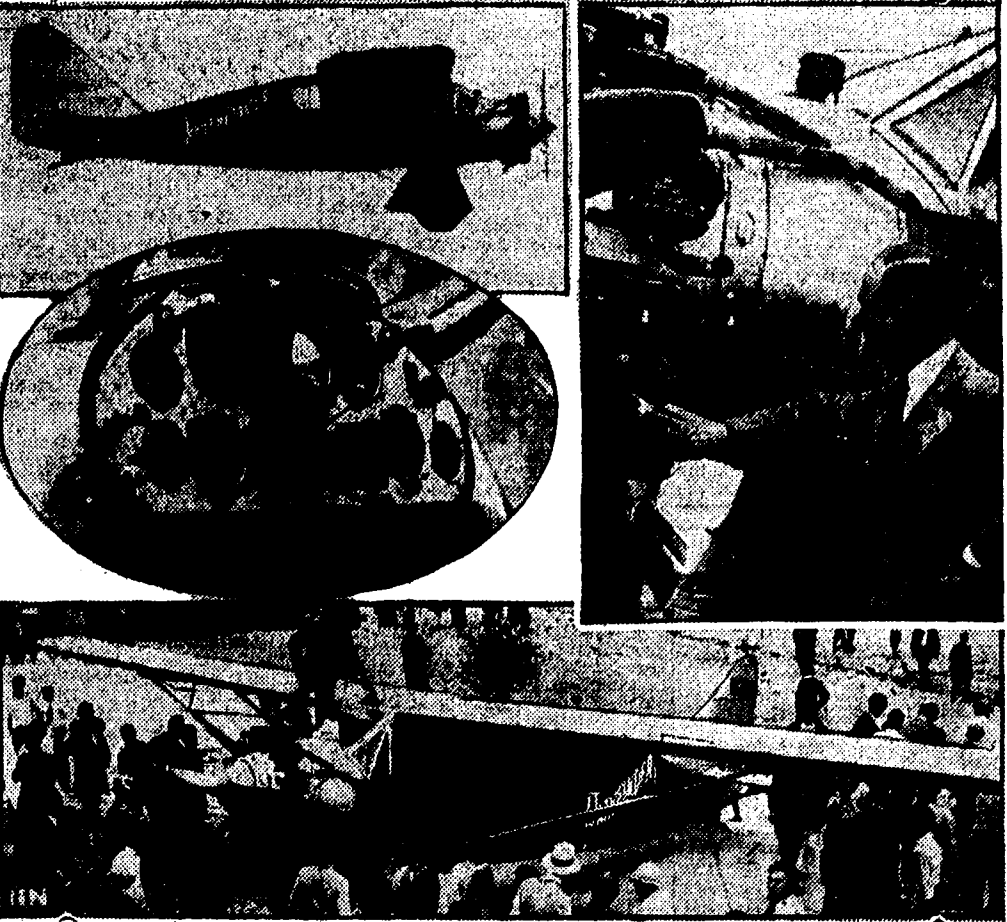

He was born at Edom, Van Zandt county. After being graduated from Southwestern University, he practiced law at Grand Rapids in 1913.

He is survived by his widow, six children, his father, J. W. Germany, Grand Saline; two brothers, E. B. Germany, Dallas, and Garvin Germany, Denver; and a sister, Mrs. Hal Kennedy, Brownsville.

FISHING TRIP FATAL

FORT WORTH, July 11.—(AP)—Floyd E. Taylor, Fort Worth, who accidentally shot himself yesterday at Rocky Falls, near Bridgeport, while on a fishing trip, died here today. Taylor was brought to the hospital late last night in a Bridgeport ambulance. A shotgun he was handling was accidentally discharged.

CONQUERORS ATLANTIC FETED IN ROME

Braving the terrors of the uncharted air over the Atlantic in a small single-motored ship, Roger Q. Williams and Lewis Yancey completed the long flight to Rome late Wednesday where they were accorded a royal reception. They were forced down by exhausted fuel tanks when over Spain. Top left shows the "Fatfinder" in flight; left center shows the instrument panel that guides the flyers at their high altitudes; at right is Roger Williams looking over the carrier of the pilots' hopes; below, the ship on the beach at Old Orchard, Me., ready for the take-off.

PROWLERS ENTERED BUSINESS HOUSES WEDNESDAY NIGHT

INTRUDERS LOOKING FOR CASH—MERCHANDISE NOT MOLESTED

Three business houses of Corsicana were entered by burglars late Wednesday night and early Thursday morning, but a check failed to reveal losses of any consequence. It was apparent that the intruders were looking only for money and did not molest other merchandise.

Entrance was effected by breaking glass window, door and transom with brick or other weapons. The burglaries were reported to officers and city detectives were at work on the case early Thursday morning immediately after the burglaries were discovered, but no arrests have been reported in the cases.

Stores Entered.

Burglars entered the store of R. M. Whitten, corner of North Fifteenth street and West First avenue at an early hour Thursday morning. The door and lock of the safe was broken but a check on the contents revealed only \$5, in gold, missing.

Entrance was effected by cutting a wire screen and breaking a window in the front of the store with a brick taken from the sidewalk. Exit was made at the rear of the store.

The garage was entered at the rear of the store and a number of car tools were taken into the store.

Swedish Flyers Reach Greenland on American Hop

COPENHAGEN, Denmark, July 11.—(AP)—Advices received here from Iqviut, Greenland, state Captain Albin Ahrensberg and the crew of the airplane, Sverige, reached Iqviut at 6 a. m. today in a motorboat after landing at Kungssait Bay from Reykjavik, Iceland.

The word from Iqviut was that Captain Ahrensberg was replacing the word from the inland ice of Greenland but encountered increasingly bad weather and decided to fly along the Greenland coast.

Perceiving that they would be unable to continue to Iqviut, the Swedish airmen made an excellent landing in the dark last night and then lit fires on the shore to attract attention.

The rescuers were noticed by the motor boat Sasefo which put in and took them safely to Iqviut.

The Sverige left Reykjavik, Iceland, at 1:45 p. m. yesterday (9:45 a. m. E. S. T.) intending to make Iqviut, Greenland, and continue the transatlantic flight they began a month ago at Stockholm, Sweden.

The aviators remained at Reykjavik several weary weeks replacing a new engine in their plane and testing it out before continuing to the United States. They landed near here, originally several weeks ago when the motor developed trouble.

ITALIANS RECEIVE FLYERS ROYALLY; DALLAS-HONGKONG FLIGHT BEING CONSIDERED

Chicago Tribune Plane Is Refueled For Berlin Dash

CHICAGO, July 11.—(AP)—With 600 gallons of fuel in its tanks, the "Untin" Bowler awaited favorable weather today at Port Burwell, Labrador, to dash across Hudson and Davis Straits at Mt. Evans, Greenland, next scheduled stop on its flight from Chicago to Berlin.

The Chicago Tribune, which is backing the flight, was told by Robert Wood, aviation editor and a passenger on the "Untin" Bowler, that thick fog and unfavorable winds kept the amphibian out of the air yesterday. The day was spent, Wood said, in fighting to keep the plane from being crushed by huge ice cakes blown into the fjord where it was anchored.

Not even a tentative schedule for their activities the next few days has been arranged, but it was said at the American embassy and in official government quarters a flood of invitations and requests had appeared and needed settling, since it would be humanly impossible for the aviators to comply with all.

Mussolini Is Interested

Italians regarded almost as notable as their flight the intense interest Premier Mussolini displayed in their feat. The Duke was kept waiting for two hours last evening at the airfield for the flight where it was anchored.

(Continued on Page 2)

DETAILS COMPLETED FOR BIG WILDCAT FERRY CELEBRATION THOUSANDS EXPECTED ATTEND

KEEN BATTLE IS IN PROSPECT OVER DEBT RATIFICATION

PARIS, July 11.—(AP)—Premier Poincare fired the first gun parallel today in what promises to be a keen battle over ratification of the Mellon-Beranger debt accord, in beginning his speech, expected to last most of the day, the premier strongly urged unreserved ratification.

Contrary to his custom, M. Poincare refrained from making an elaborate review of the history of the case, but squarely confronted the chamber with its responsibilities.

"There are two ways in which you may destroy the Young plan," he began, "first by non-ratification, and second, by ratification with reservations unacceptable to our creditors."

Thirteen Remain in Hospital Thursday; None Fatally Hurt

ROCKY MOUNT, N. C., July 11.—(AP)—Thirteen of two score persons injured in the wreck 20 miles north of here yesterday of the Seminole Limited, fast Florida-New York train of the Atlantic Coast Line railroad, were in the railroad's hospital here today. None was fatally injured.

Five Pullman cars of the train slid down a six-foot embankment into a swamp. W. B. Darrow, general superintendent of transportation, blamed the breaking of a truck for the accident.

Passengers were rescued by the crew and uninjured passengers who broke the glass in windows of the Pullmans and entered the cars.

Freak Dog With Two Bodies Born South Corsicana

A dog gave birth to a freak puppy near the Corsicana Cotton Mill Wednesday, the pup being practically a double.

According to those who saw the freak, the canine had one head. Two bodies were joined together at the shoulders, there were seven legs and eight feet. The body on the left side of the spotted pup was that of a male and the right body was that of a female.

The puppy was bitten in the head by chickens and died, but it is reported that the freak will be put in alcohol and preserved.

One other normal puppy was born at the same time.

The dog is owned by a negro woman who lives near the Cotton Mill and Wednesday afternoon was charging a nickel for a look at the pup.

A Daily Sun reporter received his information on this freak from E. F. (Mose) Wells, county tax assessor, who was one of those who paid a nickel to see the pup.

SNARLED LAWS AND CUSTOMS CURTAIN FUTURE CHINESE

ACTION AGAINST SAN FRANCISCO VICE-CONSUL NOT YET DETERMINED

WASHINGTON, July 11.—(AP)—A tangle of racial customs, differing national laws and international diplomatic usage today curtailed the immediate future of Ying Kiao, a Chinese official, consul at San Francisco, and his wife, who is accused of having attempted to smuggle a large quantity of opium into the United States.

Ying Kiao has been attached to the San Francisco consulate five years, having been appointed by the former Peking government. As a result of the finding of opium in the trunk brought into the United States by Ying Kiao, he has been suspended from all duties connected with the consulate, pending investigation by Minister C. C. Wu, representative in Washington of the new Nanking government.

The minister's action followed receipt at the legation of numerous messages from Chinese in the United States and the dispatch by him of a preliminary report to Nanking. Among the Chinese demands for action against the former vice consul and his wife was the demand by the executive committee of the Kuomintang in America—the party which supports the present Chinese government—under Chinese law, which may impose the death penalty in such cases.

Tracing Opium King

SAN FRANCISCO, July 11.—(AP)—Ramifications of a purported international opium trade are being traced by the U. S. Customs Service.

(Continued on Page 2)

Blood Transfusion For Injured Girl; Heiress Is Held

CHICAGO, July 11.—(AP)—A blood transfusion was performed today to save the life of Miss Dorothy Wilson, debutante daughter of Milton Wilson, a director of Wilson Brothers, manufacturers.

Miss Wilson was critically injured yesterday in a late motorcar accident by an automobile driven by Miss Helen Hertz, 19-year-old daughter of John Hertz, former president of the Yellow Cab company. Miss Hertz's face was lacerated, and she was badly wounded, and is at liberty on her own recognizance.

The transfusion was necessitated by hemorrhaging resulting from a crushed pelvis. Miss Wilson also suffered from shock. Physicians said her condition was "grave."

Silver's Solitary For Suicide, Not Flirting

HUNTSVILLE, July 11.—(AP)—Bob Silver, didn't suffer solitary confinement in the penitentiary last week for wailing at a girl, according to E. F. Harrell, warden.

"Silver was placed in solitary confinement to allow his nerves to quiet after he attempted to commit suicide by jumping from the third floor of the prison hospital," Harrell said. "Two other convicts stopped him. He has been released from solitary confinement and is back at his regular place in the prison laundry."

General Gourard to See President Hoover

NEW YORK, July 11.—(AP)—Gen. Gourard, military governor of Paris and World War commander of the first army of France under whom the Rainbow Division fought in 1918, departed this afternoon for Washington to meet President Hoover before going to Baltimore where the annual Rainbow Division convention opens on Saturday.

General Gourard arrived late last night on the liner Paris.

CULVER CITY MEN ARE GIVEN CABIN PLANE THURSDAY

STARTED TENTH DAY IN GOOD SPIRITS; OVERCOME MOTOR TROUBLES

CULVER CITY, Calif., July 11.—(AP)—The two hundred and twenty-first hour mark was passed by the endurance biplane Angeleno at 12:29:30 p. m., today.

CULVER CITY, July 11.—(AP)—Circling the airport here with the same flawless consistency of performance that has marked each hour since the start of their flight, L. W. Mendell and R. B. Reinhart in the biplane Angeleno reached the 219th hour of the endurance flight at 10:29 a. m., today.

As the tenth day of the flight began, officials of the Buhl Aircraft company of Marysville, Mich., builders of the Angeleno, announced they would present Mendell and Reinhart with a six-passenger Buhl air sedan biplane, powered with a Wright Whirlwind J-4, 300 horsepower motor, in appreciation of the endurance feat.

Pass 215 Hour Mark

CULVER CITY, Cal., July 11.—(AP)—Two hundred and 14 hours after take-off July 2, L. W. Mendell and R. B. Reinhart dropped a note here at 5:30 a. m. today, asking for a refueling at 7 a. m. The note said "Motor o. k. We are o. k."

CULVER CITY, July 11.—(AP)—After 216 hours in the air, L. W. Mendell and R. B. Reinhart dropped a note this morning indicating the motor of their endurance plane might be beginning to show signs of weakening.

"Think motor a trifle noisy," the note said. "Some trouble with oil pump last night."

The plane was refueled at 7 a. m.

(Continued on page 15.)

APPROPRIATIONS HOLDING INTEREST LEGISLATURE NOW

HOUSE AND SENATE PAGING ITEMS FROM DEPARTMENTAL BILLS

AUSTIN, July 11.—(AP)—A two-hour attempt of Rep. George Puri of Dallas to strike from the house departmental bill traveling expenses aggregating \$170,000 ended unsuccessfully today when Puri's views were overruled.

After the lawmakers had refused to vote slashes in the insurance, health, comptroller, labor and water departments, Puri withdrew amendments which would have affected all state departments similarly.

Representative John Wallace, chairman of the appropriations committee, resisted Puri's attempts to pare the amounts.

A slight reduction was made in the banking department at the request of Rep. Wallace, but the morning's business had concluded there was practically no change in the total amount of the bill, representing an appropriation of \$1,547,744.

Progress of the senate on its departmental bill was checked by a floor debate between Senators A. (Continued on Page Two.)

Harry Leahy Saved From Chair by Writ

GEORGETOWN, July 11.—(AP)—A mandate restraining the warden of the penitentiary from executing H. J. Leahy early tomorrow was issued here today by Judge Harry Dolan.

The mandate was ordered after a writ of habeas corpus had been filed. The procedure was based on an affidavit of Miss Amanda DeLoe of Taylor, an acquaintance of Leahy, who stated that in her opinion the condemned man was insane.

Leahy was convicted in district court here in February, 1928, on the charge of murdering Dr. J. A. Ramsey, Mathis, Texas, physician.

In issuing the mandate, Judge Dolan ordered Leahy brought here on July 22 "for the purpose of determining his sanity."

Leahy, who was brought from which to select a jury to hear the sanity trial also was ordered.

Woodville Man Shot Brother-in-law

WOODVILLE, July 11.—(AP)—Walter (Big Boy) Davis was in jail here today charged with the murder of O. P. Haynes, his brother-in-law.

Davis surrendered after the shooting.

Trouble was said to have arisen over family matters. Davis' sister recently was separated from her husband, the deceased.

BAZETTE NINE IS VICTOR IN BATTLE AT WHITES CHAPEL

JENNINGS HAS EDGE OVER SPURLOCK IN HURLING DUEL

Before a large enthusiastic crowd of baseball fans Wednesday afternoon the Bazette Independents handed the Whites Chapel team a 5-1 defeat on the Whites Chapel diamond. The game was featured by the play of Spurluck and Jennings, with four unearned runs being made off Spurluck's delivery. Jennings allowed the host team only four scattered bingles while Spurluck gave up six.

Watt, Bazette centerfielder, was the only man on either team to secure two hits during the fray.

Amateur Baseball in Slump Says Veteran Scout After Search

DALLAS, July 11.—(P)—A veteran baseball scout, who has just returned from a tour of the state, complains that amateur and semipro ball is in the same slump that has hit the small bush leagues. At the present rate there will be an alarming scarcity of diamonds in the near future, he declared.

It is used to be that I could make a loop of small towns within a radius of 100 miles, find baseball going full blast in all of them and discover as fine looking prospects for the majors as ever pulled on spoked shoes. Now these diamonds are grown up in Johnson grass."

The charge is made that Simon Pures have lost respect for their status; that playing for the game practically is a thing of the past. Merchants have found they can't afford to pay the salaries demanded in addition to buying expensive equipment simply for the advertising obtained, the scout said.

Field Fans to See Semipro Club in Enclosed Park

MEADE, July 10.—(SP)—Back to the home team which is second in the Bi-State Empire baseball league, the business men of Fairfield will erect an enclosed baseball park for the team managed by J. E. "Spot" Lott, justice of the peace.

Field Sunday defeated the Mexia Millers 2 to 0 in a fast game and prepared to go to Tehuacana Wednesday. Streetman is leading the race with all wins and no losses, although one game is unplayed.

The Mexia Brownies playing on their home field beat the Groesbeck Humble team Sunday 3 to 2.

Other games scheduled Wednesday are: Mexia Millers at Groesbeck; Streetman at Mexia Brownies.

The teams play two scheduled games each week.

Final Rally Gains Victory For Locals

A three run rally in the last of the seventh enabled the Magnolia Millers to win a 5-4 decision over the Silver City nine Tuesday afternoon in a seven inning contest played at the Municipal Park. During the first six stanzas, Jabo, visiting tinner, had the local well in hand, allowing eight hits but in the final inning, the heavy artillery began operating and two solid home runs by Jabo and S. Peden, scored the locals in chasing three tallies across home plate.

No game has been scheduled for Sunday afternoon, by the Magnolia-Millers and invite any team to play at the Municipal Park on that date.

Score—Silver City 10 101 1-4 8 2; Magnolia 5 4 100 0-5 13 1; Jabo, Batter; Jabo and S. Peden; Hoffman and Harris.

MAJOR LEAGUE LEADERS

(Including Games of July 10) (By the Associated Press)

National.

Batting—Herman, Robins, .293. Runs—Ott, Giants, 80. Hits—Terry, Giants, 121. Doubles—Hefner, Cards, 26. Triples—L. Waver, Pirates, 12. Home runs—Ott, Giants, 24. Stolen bases—Cuyler, Cubs, 26. Pitching—Grimes, Pirates, won 14, lost 1.

American.

Batting—Fox, Athletics, .296. Runs—Gehringer, Tigers, 78. Hits—Batted in—Simmons, Athletics, 85. Hits—Hanush, Browns, 126. Doubles—Gehringer, Tigers, 30. Triples—Miller, Athletics, 10. Home runs—Gehringer, Yankees, 22. Stolen bases—Gehringer, Tigers; Cissell, White Sox, 12. Pitching—Grove, Athletics, won 14, lost 2.

RAIN HALTS BOUT

CHICAGO, July 11.—(P)—Rain forced Promoter Jim Mullen to postpone the outdoor 10-round fight between Jack Berg of England and Herman Perlick of Kalmarzoo scheduled here tonight. It will be held tomorrow.

Roaming the Realm of County Sports

By DELMORE OLSEN.

Baseball games, a plenty have been scheduled for this week end among Navarro county amateur teams, with several fast games carded for Corsicana and surrounding communities. To date the only game scheduled in the county is the contest between the Rinko-Dinks and Silver City Sunday afternoon on the Mineral Hill diamond. Kerners will be the site of a three game series Thursday, Friday and Saturday between the Kerners Independents and Bazette nine.

Other games scheduled are: Whites Chapel at Tupelo Saturday; Whites Chapel and Humble Refiners Sunday at Groesbeck; Blooming Grove and Milford Sunday. For the first time in several weeks, the Magnolia Millers have not scheduled a game for Sunday.

The Bazette team, after a period in which several marks in their team were being straightened out, are going like a house afire, and will by the end of the season pile up a large number of victories if they keep the pace they are now traveling. Numbered among their conquests for the week are two victories over Tupelo, one over Kerners, one win from Whites Chapel. Three games have been scheduled with the Kerners Independents in Corsicana for Thursday, Friday and Saturday.

Tom Warren, Bazette manager, tells us that he has a deal pending with the Radium nine, pride of East Texas, for a six game series beginning next week end. No definite dates have been set for the important series but with both managers willing, it won't be hard to select dates for the games.

SPEED-PRESSURE OF MODERN LIFE BLAMED FOR AILMENTS BY MEDICAL ASSOCIATION

PORTLAND, Ore., July 11.—(P)—The speed and pressure of modern life were blamed by speakers before the American Medical association congress here for many physical ailments.

Dr. Joseph Eckel, Buffalo, N. Y., psychiatrist, declared daily excitement not only affected the mind but that mental disorders due to the pressure of environment "may actually produce deafness, blindness or serious gastric symptoms."

Studies at the Cornell university clinic of patients suffering from ailments of the digestive system brought on by emotional strain were presented by Dr. George S. Stevenson of New York.

The pace of modern educational methods was deplored by Dr. Lloyd Mills of Los Angeles, who declared its speed was not only conducive to health but made accurate thinking impossible.

Dr. Lovell Langstroth of San Francisco told the congress that while most Americans had advanced beyond the fried-potatoes, sweet desserts and pie breakfast in eating for menus conducive to degenerative diseases remained.

Burned Large Sum of Money Austin Recluse Held By Authorities

AUSTIN, July 11.—(P)—Frustrated in what police claim was an attempt to commit suicide preceded by the destruction of \$1,000 in currency, an aged Austin recluse was held for investigation in jail today.

"Warned by neighbors this morning the man was to make a suicide attempt, an officer made a call to the home in search of poison said to have been secreted there. The policeman found the man-but no poison.

A second call sent an officer to the scene, but the man had disappeared, and a police watch was established. Later he was found a short distance from the house destroying the last batch of currency. Only a pile of ashes remained where he had dumped the bills. He was taken to headquarters where poison was found in his shoes.

Lifeless Baseballs Under Fire in Texas

DALLAS, July 11.—(P)—Baseballs used in the Texas league this year aren't lively enough to suit either club owners or players.

Complaints that they lack the zip of those used last year have been continuous since the season began. The circuit contracted for the same kind as used in the National league, but the club owners believe that culls, or less perfect balls, were shipped southward.

FIRE CAPTAIN DIES

HOUSTON, July 11.—(P)—Fire Captain J. S. Little, 40, died early today of injuries received July 2 in a grade crossing accident. Two other firemen were killed and four injured.

SNARLED LAWS AND CUSTOMS CURTAIN FUTURE CHINESE

(Continued From Page 1)

national opium smuggling ring were being traced by government officials here today as they awaited instructions from Washington regarding Mrs. Suse Ying Kao, wife of the suspended Chinese vice-consul here, in whose baggage a fortune in opium was found last Monday.

Investigators announced "incriminating evidence" had been found in Mrs. Kao's personal baggage, opened after the opium had been found. It was said to have implicated "a high official" in the Chinese consulate here.

United States Attorney George J. Hatfield said only Mrs. Kao's quasi-diplomatic standing had prevented her arrest thus far. He said he expected instructions from the department of justice today on the case.

Investigators declared they had found "indisputable proof of Mrs. Kao's culpability" in her personal baggage. She has insisted she was unaware of the presence of opium in her trunk and that she had been made the dupe of smugglers.

Resentment against Mrs. Kao ran high in the nationalist circles of Chinatown. Chinese language newspapers printed an appeal for a mass meeting "to make amends for this insult offered the American people by one of our own race."

SAN FRANCISCO, July 11.—(P)—A demand that Mrs. Ying Kao, wife of the Chinese vice consul in San Francisco, be tried under Chinese law and put to death if convicted for her alleged part in bringing a large consignment of opium to this country has been made here by the executive committee of the Kuomintang of America.

It was the government representing the American section of the political organization behind the Nanjing government, announced last night it had voted for the application of Oriental justice to Mrs. Kao's case and had demanded of C. C. Wu, Chinese minister in Washington, that the woman be returned to China for trial.

It was explained the Nationalist government, since the new emergency laws against trafficking in opium in China, and that such laws provided the death penalty in case of their violation by persons connected with the government.

Ying Kao, upon the advice of friends, has terminated his connection with the consulate.

Football fans who like to travel will have the time for their lives next year following the local Tiger machine. Games have been scheduled in Waco, Temple, Waxahatchie and last but not least Cleburne. Only one conference game is scheduled for Tiger field, Hillsboro, the week sealer in District 4, plays the Tigers on Tiger field.

PROWLERS ENTERED BUSINESS HOUSES WEDNESDAY NIGHT

(Continued from page 1.)

and used in opening the safe in addition to several wrenches, etc., the intruders apparently brought with them. Several screw drivers and other tools were broken and left in the store.

The light was still burning in the store when Mrs. Whitten went to open the place of business about 6 o'clock Thursday morning.

The cash drawer was open, but nothing was missed.

Neighbors reported that they had heard the prowler at work in the store but thought that it was probably someone changing a tire on the other side of the building and did not arise and investigate the noises.

The knob and lock on the safe were broken.

The Western Union office was entered through the rear door which was shattered by a large piece of iron. The heavy iron door was smashed from the outside and then the burglar reached inside of the door and unlocked the right latch. Nothing was missed and the safe did not contain indications of being disturbed, but the cash drawers at the front of the office were torn open, but as the money was left in them during the night, a large sum was left in the Western Union office, which had been badly bent, apparently having been used in prying open the drawers.

The tailor shop of Charles Plsek on West Collin street, also was entered. Entrance was affected by smashing a transom window over the rear door with a brick and crawling through the opening. No loss was reported.

City officers and detectives began an investigation at an early hour Thursday morning on the three burglaries.

CHICAGO CUBS TAKE Second From Giants

POLO GROUNDS, New York, July 11.—(P)—The Cubs won their second straight from the Giants, 5 to 3, in the first game of a double-header here today. Fred Fitzsimmons was hit hard, but Bruins profited from three Giant errors, which added four runs to the Chicago total. Perce Malone overcame the seventh and the ninth. McMillan and Fullis hit homers. Score: Chicago.....110 308 000-8 11 1 New York.....000 000 300-3 7 3 McMillan, Taylor; Fitzsimmons, Mays and Hogan.

WESTERN UNION SUNDAY HOURS

Opening Sunday, July 14, the office hours of the local Western Union office will be from 10 a. m. to 11 a. m. and 4 p. m. to 7 p. m., according to announcement by the management Thursday. This will give the public two hours additional service on Sunday.

CORPORATION COURT.

The police blotter Thursday morning revealed one charge of vagrancy, one charge of affray, one traffic violation and one speeding case. Two cars were tagged for parking in a fire lane.

The sheriff's office at Hillsboro reported the theft of 150 chickens in Hillsboro Tuesday night and local officers were asked to watch for them.

MEETING STARTS AT EUREKA

A coronal invitation is extended to the general public to attend the revival meeting at the Methodist church at Eureka beginning the third Sunday in July. Rev. J. U. McAfee, pastor of the Methodist church at Eureka, will do the preaching. Services will be held twice daily.

REV. I. R. DARWOOD, Pastor.

ITALIANS RECEIVE FLYERS ROYALLY; DALLAS-HONGKONG FLIGHT BEING CONSIDERED

Famous Coach to Aid in SMU Coaching School Next Month

RAY MORRISON

Ray Morrison, head football coach of Southern Methodist university Mustangs, and noted authority on the passing game, will assist Pop Warner and Knute Rockne in making the S. M. U. coaching school a big success. The Warner-Rockne coaching school will be held in Owenby Stadium, Dallas, Texas, from August 19th to 31st.

It was Ray Morrison's team who invaded the East last year and was noted out by the Army after displaying a dazzling pass offense and defense which will be long remembered in that section.

Morrison rose into national prominence when he was selected as all-American quarterback from Yale university in 1909 and 1910. After leaving Vanderbilt, Morrison coached several Academy football squads, as well as college and university teams before coming to S. M. U. in 1916. During the past ten years the Mustang mentor has become one of the best known coaches in the nation and has become very popular in the Southwest.

APPROPRIATIONS HOLDING INTEREST LEGISLATURE NOW

(Continued From Page 1)

J. Wirtz of Seguin and Tom Love of Dallas over an attempt of Senator Love to print in the journal his reasons for furthering a resolution congratulating Congressman Box on a recent attack on John J. Raskob, democratic national finance chairman.

Senator Wirtz said he was "tired of the Dallas senator trying to tell democrats how to run their party."

AUSTIN, July 11.—(P)—Appropriations bills providing for support of the state government during the next two years held the spotlight in both houses today as legislators began their fourth day of active work during the session.

The senate yesterday paired \$1,500,000 from its departmental measure which originally contained 12,600,000 for support of the thirty-two departments of government.

Senator Tom Pollard, chairman of the finance committee, declared that while a sweeping cut was accomplished lawmakers would find it imperative to put back almost \$1,000,000 when free conference committees of the senate and house discuss differences on the two bills.

The house moved slower in consideration of its department appropriation, but managed to eliminate an item of \$200,000 for purchase of land around the Alamo. The bill stood at \$1,547,744 when the day's work was finished.

Representative George C. Purl of Dallas prepared amendments which would lop off \$170,000 in traveling expenses from the bill.

OLD FEUD BETWEEN CHINA AND SOVIET FIRES MANCHURIA

(Continued From Page 1)

Russian unions and other Soviet agencies in Northern Manchuria were spreading concerted Communist propaganda aimed at disruption of Chinese unity.

Japanese Watch Coup.

TOKYO, July 11.—(P)—Japanese official circles watched events in Manchuria today with great anxiety, seeing in the Chinese coup which has destroyed Russian control of the Chinese Eastern Railway, a situation dangerous to the Chinese Southern Railway, in which Japan has a vital interest.

All Russians Dismissed.

Harbin, Manchuria, July 11.—(P)—Official announcement was made today that the Russian general manager, assistant general manager, and all Russian heads of various departments of the important Chinese Eastern Railway, have been "dismissed."

The Chinese, Shan Chi-Khan, member of the board of directors and assistant general manager, has been appointed to assume charge.

Chinese Take Control.

TOKYO, July 11.—(P)—A Rengo dispatch from Harbin today stated that the Chinese authorities took over complete control of the Chinese Eastern Railway at midnight last night.

Claim Agents Talk Grade Accidents

SAN ANTONIO, July 11.—(P)—Prevention of railroad crossing accidents was the major topic discussed at the 18th annual convention of the Southwestern Railway Claim Agents Association, called over complete control of the Chinese Eastern Railway at midnight last night.

order by A. C. Broadway, president of Little Rock, Ark., today here.

Tourist Regulations At Laredo Unchanged

LAREDO, July 11.—(P)—A continuation of regulations regarding tourists will remain unchanged from the present method after July 25, Felipe Canales, assistant secretary of interior at Mexico City telegraphed the Laredo chamber of commerce today. His order cancelled a new regulation that was to have become effective on that date, stopping tourists facilities by chambers of commerce. Both Mexican and American business men along the border were jubilant over the notification.

STRIKE RUMOR DENIED.

LOS ANGELES, July 11.—(P)—Frank Gillmore, president of the Actors' Equity Association, told the Associated Press today a rumor of strike order by the organization was "nothing more than a rumor."

CHAIN FINANCES DISCUSSED BEFORE NAVARRO BANKERS

STANLEY LONGMOOR PRINCIPAL SPEAKER AT MONTHLY SESSION

"I am not an alarmist, but I think we had better face the problem of chain banks squarely in the face, rather than attempt to avoid it," declared Stanley Longmoor, vice president of the Navarro County Bankers' Association, in the Navarro Hotel Tuesday night. J. E. Butler, president of the association, presided. J. H. Roberts had charge of the program.

R. H. Collier, chief national bank examiner of Eleventh Federal Reserve District, was introduced by Mr. Roberts as a visitor from the future stability of banks in smaller cities, and will tend to concentrate wealth in larger cities. Finally, this system would lead to the abolition of all banks except those in larger cities. Banks then would become branches of the larger banking systems which would take the profits from the local communities and place it at the disposal of larger cities, the speaker asserted.

Against Chain Banks.

"My advice to you bankers," he continued, "is to observe the strictest policies of integrity with your shareholders and depositors and the branch and chain banks will be smothered," Mr. Longmoor concluded.

President Butler expressed regret in behalf of the association that Congressman Luther A. Johnson was unavoidably detained in Mexico, and could not make a talk as had been planned. Supplementing Mr. Longmoor's address, Mr. Butler read and discussed an interview with Mr. Johnson that appeared in a recent issue of the American Banker, which dealt with the subject of Mr. Longmoor's speech.

F. P. McElwain, local road builder, gave a short discussion of the present status of Navarro county's highways. He stated it would be 18 months before the North-South highway would be completed. He pointed out lateral highways were being completed, but they were having difficulty in connecting them through the county.

Lowry Martin, in behalf of the chamber of commerce, invited all members of the bankers' association to be present at the Wildcat Ferry celebration, Friday, July 12. County Judge Clay Nash made a short talk, in which he urged the people of Navarro county to wake up to the possibilities and benefits of having a co-operative dairy like those of Tyler and Waco. Judge Nash stated he was highly in favor of good roads for Navarro county, and was doing all in his official power as county judge to speed up their construction.

R. H. Collier of Dallas, stated the McPadden Act was the first bill passed regarding banks in 60 years. He urged members of the bankers' association to oppose any general legislation regarding national banks, because it will be for the good of all banks. "Branch banks are coming, and cannot be avoided," the speaker asserted, "but you must face the issue and fight it."

John Beck of Fort made a short talk regarding the Wildcat Ferry celebration.

Mrs. Philip Sheets and baby left Corsicana Wednesday for Houston where they will visit for two weeks.

Etex Organizer

GEORGE D. HOLLAND

LONGVIEW, July 10. —(SP)—After a period of outstanding service in vocational agriculture and chamber of commerce work, George D. Holland, secretary-manager of the Atlanta chamber of commerce, comes to the East Texas chamber of commerce as directors of its organization service department. Announcement of his appointment has been made by President Hayne Neims of Groveton.

Mr. Holland was born and reared on a farm in Brazos county. Being graduated from Texas A. and M. college in 1924, he taught vocational agriculture for one year in the Dalhart high school, and then spent one year as superintendent of the Garrison high school, where he also taught vocational agriculture. Leaving Garrison, he went to Atlanta, Cass county, as secretary-manager of the chamber of commerce and instructor of vocational agriculture in the high school.

During the past three years Mr. Holland has been active in agricultural work throughout the Atlanta trade territory. Farmers' night schools, consisting of a minimum of fifteen meetings, were taught by Mr. Holland in twenty-three communities. Soil improvement, terracing, intelligent use of commercial fertilizers, and other pertinent farm problems being discussed. The total enrollment of these night schools exceeded 1,000 farmers, and the average attendance was more than 800.

Other projects of the Atlanta chamber of commerce under the direction of Mr. Holland include a fair, a home orchard campaign, farmers' short courses, community cotton plots for building rural school houses and teacherages, placing of twenty-three farm levels in the trade territory, and extensive civic improvements in Atlanta. Nineteen community cotton plots, worked cooperatively by the farmers, last year yielded in excess of \$4,000 to these communities. Under his management, the problem of the Atlanta chamber of commerce has been not only the development of farmers and their farms, but the development of rural schools, churches and community spirit.

As director of the organization service of the East Texas chamber of commerce, Mr. Holland will assist local communities in the organization of chambers of commerce and in the various problems of chambers of commerce work, for which he has ably demonstrated his ability by his organization work in previous connections. In view of his outstanding work in agriculture, he will devote much of his time to assisting Agricultural Director Rogers Davis with the organization's agricultural program, specializing on livestock.

NEW DEPARTMENT IS ADDED TO ETEX CHAMBER COMMERCE

GEORGE D. HOLLAND HEADS
DIVISION OF ORGANIZATION
SERVICE

WASHINGTON, July 10. —(AP)—Three members of the federal farm board are expected to arrive in Washington by Friday, and President Hoover is planning to take them to his Virginia fishing preserve for the week-end.

They are Alexander H. Legge, chairman of the board; James C. Stone, vice chairman; and Carl Williams, of Oklahoma City, who will represent the cotton growers.

The problem of moving the wheat crop in the southwest was discussed with President Hoover today by Chairman O'Connor of the shipping board.

To facilitate exportation of grain through Gulf ports 25 vessels of the shipping board are being held in reserve and two of these have already been allocated to Galveston, Texas.

Senator Connally, Texas also conferred with President Hoover today upon the problem of disposing of the southwestern wheat crop. The Texas senator expressed opinion the solution lay essentially in finding adequate foreign markets for absorption of grain.

With vessels which the shipping board is holding available for moving the crop, Connally was of the opinion this phase of the question was cared for to a large degree.

SENATOR CONNALLY CONFERS WITH PRESIDENT HOOVER ON SOUTHWESTERN GRAIN CROP

WASHINGTON, July 10. —(AP)—Three members of the federal farm board are expected to arrive in Washington by Friday, and President Hoover is planning to take them to his Virginia fishing preserve for the week-end.

They are Alexander H. Legge, chairman of the board; James C. Stone, vice chairman; and Carl Williams, of Oklahoma City, who will represent the cotton growers.

The problem of moving the wheat crop in the southwest was discussed with President Hoover today by Chairman O'Connor of the shipping board.

To facilitate exportation of grain through Gulf ports 25 vessels of the shipping board are being held in reserve and two of these have already been allocated to Galveston, Texas.

Senator Connally, Texas also conferred with President Hoover today upon the problem of disposing of the southwestern wheat crop. The Texas senator expressed opinion the solution lay essentially in finding adequate foreign markets for absorption of grain.

With vessels which the shipping board is holding available for moving the crop, Connally was of the opinion this phase of the question was cared for to a large degree.

Over Hundred Farm Youth Expected to Attend Big Rally

Over one hundred members of the Navarro county boys and girls 4-H Club are expected to attend the rally at the city park Thursday, Miss Mattie Wilroy, home demonstration agent, stated Wednesday morning.

The program outlined for the meeting includes games and contests of the kind at the city park Thursday morning, a basket lunch at noon, and a picture show party in the afternoon, through the courtesy of Leslie Wilkes, manager of the Palace theatre.

There will be no lectures of any kind at the meeting, the whole time will be devoted to entertainment of the club boys and girls.

Development of farmers and their farms, but the development of rural schools, churches and community spirit.

As director of the organization service of the East Texas chamber of commerce, Mr. Holland will assist local communities in the organization of chambers of commerce and in the various problems of chambers of commerce work, for which he has ably demonstrated his ability by his organization work in previous connections. In view of his outstanding work in agriculture, he will devote much of his time to assisting Agricultural Director Rogers Davis with the organization's agricultural program, specializing on livestock.

Eastland Horned Frog is Juvenile To Coloradoan

COLORADO, July 10. (AP)—A second Rip Van Winkle toad has been found.

The famous horned toad which allegedly slept 31 years in the courthouse cornerstone at Eastland probably had a short nap compared to a toad found here imbedded in a stone found nine feet in the ground.

The toad was a common hop-toad, full grown. It was discovered by C. B. Bassham, who was digging a septic tank where he is constructing a tourist camp in the eastern limits of Colorado on the Bankhead highway.

The workmen had dug through sap and clay to a depth of nine feet when they struck sand rock. In breaking this rock the toad was found in a solid block. A round cavity about two inches across, enclosed it.

The toad hopped off slowly when the rock was broken. Long claws on its feet indicated it had been inactive for a long period. Its front legs appeared a little deformed and its eyes bulged out when the light struck them. Its skin was pale.

QUINN-McCAFFREY WEDDING

MEXIA, July 9. —(SP)—Miss Wilda Lucille McCaffrey of Palestine, became the bride of Thomas Paul Quinn of Mexia last Wednesday night in Houston, according to word received by friends here. Mr. and Mrs. Quinn will make their home here after a wedding trip. Mr. Quinn is employed by the Texas Utilities company.

Cream Supper

There will be an ice cream supper at Corbett Baptist Church Saturday night, July 13th, benefit of the church. Everybody invited.

HEAVY INCREASE OIL PRODUCTION DURING LAST WEEK

NEW YORK, July 10. —(AP)—Daily average gross oil production in the United States increased 42,000 barrels for the week ended July 6, totaling 2,857,400 barrels, according to the weekly summary of the American Petroleum Institute.

Daily average production east of California was 1,978,800 barrels, an increase of 23,900 barrels.

Refineries representing 88.9 per cent of the estimated daily potential refining capacity, operating at 86.3 per cent of their capacity, reported daily average run of crude oil to stills as 8,589,700 barrels. Daily average the previous week was 2,837,000 barrels for refineries at 87.8 per cent of their capacity.

Daily Av. Prod. Difference

Barrels	Inc.	Barrels	Inc.
Oklahoma	717,800	Inc.	19,400

NAVARRO COUNTY BAR ASSOCIATION ENDORSE AMENDMENT

URGE CITIZENS VOTE FOR IN- CREASE NUMBER SUPREME COURT JUDGES

To the Citizens and Qualified Voters of Navarro County, Texas: The members of the Navarro County Bar Association desire to take this method of calling to your attention that Constitutional Amendment to be voted upon on July 16th increasing the members of the Supreme Court from three to nine members.

We find that there are certain misunderstandings and misrepresentations being made concerning the merits of the proposed Constitutional amendment and we desire to answer these charges in order that the citizenship may know the facts.

It has been stated that the increase of the Supreme Court from three to nine members would increase the expense. This is not so. At the present time there are two Commissions of Appeals. Courts with three members each, who aid the Supreme Court in passing upon cases appeal from the Courts of Civil Appeals. These courts would be abolished and the salaries which these members are drawing would pay the new members of the Supreme Court.

It has been stated that there is no necessity for an increase in the members of the Supreme Court, and one of the objections to the increase is that the governor would appoint the six new members. In this connection we desire to call attention to the fact that the Courts of Civil Appeals have been increased from five to eleven since the creation of the Supreme Court and that there is a constant demand for additional Courts of Civil Appeals. With this increase of Courts of Civil Appeals the work of the Supreme Court has increased to such an extent that the legislature has created the Commission of Appeals as aids to the Supreme Court. The members of the Commission of Appeals are appointed by the governor and not elected, where if amendment carries all of the judges will be elected by the people at subsequent elections. Although the Commissions of Appeal pass upon seventy per cent of the cases appealed from the Courts of Civil Appeals their decisions unless approved by the Supreme Court, have no authoritative value.

Under the Constitution as now written, the Supreme Court is required to recess for three months out of the year, during which time it is unable to function. The proposed amendment also provides that the Supreme Court shall remain in continuous session for the purpose of transacting its business. We believe the citizens are entitled to have their cases passed upon by a court of competent men whose decisions can be cited with authority, and especially when same can be secured without any additional expense to the taxpayers.

Our judicial system is patterned after the federal system. The Supreme Court of the United States consists of nine members. The duty of this court is to review and pass upon decisions of the eleven Circuit Courts of the United States. The duty of the Supreme Court of Texas is to review and pass upon appeals from the eleven courts of Civil Appeals in Texas consisting of three members each. It being the duty of the Supreme Court of Texas to pass upon and review decisions of the eleven circuit courts of Civil Appeals we believe that a Supreme Court of nine members is better qualified than one of three members, especially where same can be secured without any additional expense.

For the above reasons we earnestly solicit the support of the voters of Navarro County in behalf of the Constitutional Amendment increasing the Supreme Court from three to nine members.

Fort Worth Romance In Divorce Court

FORT WORTH, July 11.—(AP)—A romance in which a killing figured has ended in divorce suit.

Oliver Wallace, 25, shot and killed Stephen R. Graham, 41, an aged sewing machine salesman, on Dec. 11, 1927. The quarrel between the two men grew out of Graham's alleged attentions to Miss Annie Plynt, who later witnessed the killing. She and Wallace had been engaged for some time.

After the killing, she and Wallace were married. Judge Culver yesterday granted Mrs. Annie Wallace a divorce from Oliver Wallace. The petition alleged cruel treatment.

Wallace has never been tried on the murder charge.

Police Seek Pair For Drowning Hoax

EVANSVILLE, Ind., July 11.—(AP)—Police today believed Allen C. Yeager, Evansville business man, and boys' worker, was heading for Arizona after perpetrating a drowning hoax here.

It was revealed last night that Russell Morris, 13, who disappeared with Yeager, had told friends he was going to Arizona and New Mexico with a friend who had a car and "lots of money."

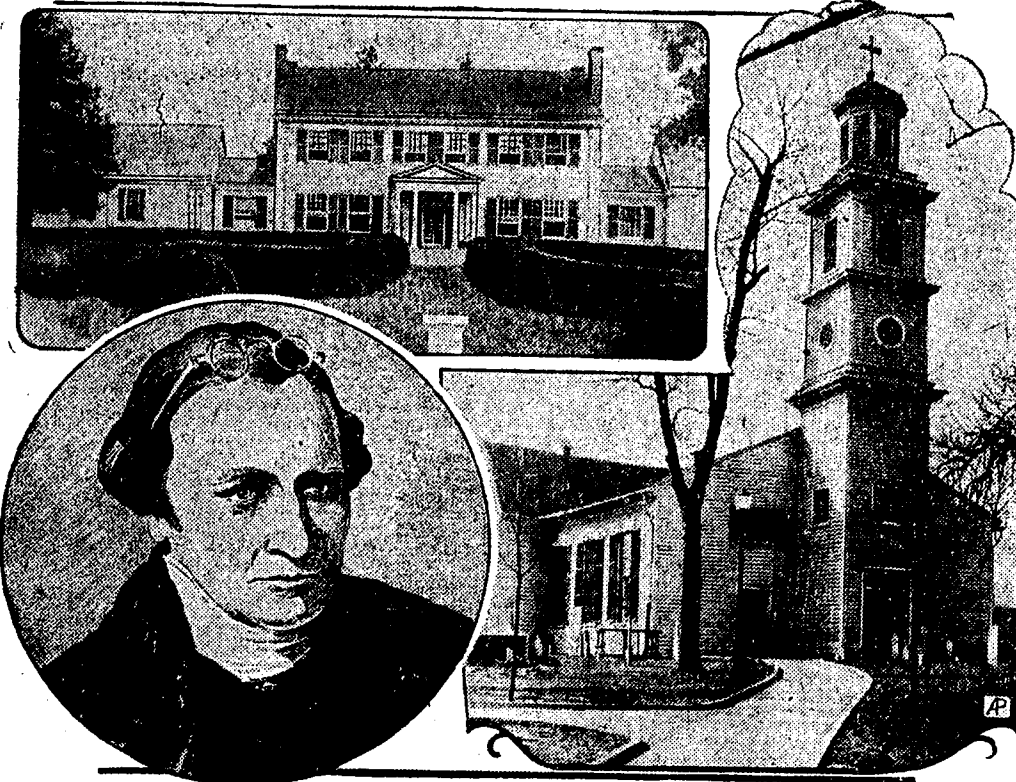

Yeager and young Morris were presumed to have drowned after the boat in which they were riding on the Ohio river Saturday night was found capsized near here Sunday.

Personal papers of the missing man found yesterday contained insurance policies for a total of \$43,000, which with double indemnity clauses would have amounted to nearly \$80,000.

RICHMOND SEEKS TO SAVE CHURCH WHERE PATRICK HENRY THUNDERED

Historic St. John's church at Richmond, Va. (lower right), where Patrick Henry (lower left) delivered his famous "liberty or death" address, is considered a fire hazard and Virginians are attempting to protect it. Red Hill (above) is the home in Charlotte county where Henry died.

RICHMOND, Va., July 4.—(AP)—Citizens of Richmond are taking steps to reduce fire hazard to old St. John's church where the beacon of American liberty was lighted in 1775 by Patrick Henry.

The church, scene of the famous Virginia assembly of March 20, 1775, where Patrick Henry delivered his famous "Give me liberty or give me death," speech, three times has been threatened with destruction by fire due to an antiquated heating system.

Boilers beneath the floor of the church three times recently have caused fire to break out in the building. A campaign for \$10,000 to install a modern heating system has been undertaken.

Services have been held in the church without interruption since its erection prior to the Revolution. Here it was that the Virginia assembly met during a crisis in American history and heard Patrick Henry urge the nation to war.

In the rough-hewn pews of the church have sat George Washington, Thomas Jefferson, Edmund Randolph, Thomas Nelson, and other noted patriots.

Wherever the American flag flies today the name of Patrick Henry, who rose from obscurity to light the fires of the war of the revolution, is honored.

The following text of the famous speech in part is given by William Wirt Henry as quoted by members of the assembly: "The question before the house is one of awful moment to this country. For my own part, I consider it as nothing less than a question of freedom or slavery. In proportion to the magnitude of the subject, ought to be the freedom of debate. . . .

"Should I keep back by opinions at such a time, through fear of giving offense, I should consider myself guilty of treason toward my country, and of an act of disloyalty toward the majesty of Heaven, which I revere above all earthly kings. . . .

"I have but one lamp by which my feet are guided; and that is the lamp of experience. I know of no way of judging the future but by the past. And judging by the past, I wish to know what there has been in the conduct of the British ministry for the last 10 years, to justify those hopes with

which gentlemen have been pleased to solace themselves and the house? . . .

"Suffer not yourselves to be betrayed by a kiss. Ask yourselves how this gracious reception of our petition comports with those warlike preparations which cover our walls and darken our land. Are fleets and armies necessary to a work of love and reconciliation? . . .

"We have done everything that could be done, to avert the storm which is now coming on. We have petitioned—we have remonstrated—we have supplicated—we have begged—and yet it comes! and we have been spurned, with contempt, from the foot of the throne. . . .

"In vain, after these things, may we indulge the fond hope of peace and reconciliation. There is no longer any room for hope. If we wish to be free * * * we must fight. I repeat it, we must fight. An appeal to arms and to the God of Hosts, is all this is left us. . . .

"Our chains are forged, their clanking may be heard on the plains of Boston! The war is inevitable—and let it come! I repeat it, let it come! . . .

"It is in vain to extenuate the matter. Gentlemen may cry peace—peace—but there is no peace. The war is actually begun! The next gale that sweeps from the north will bring to our ears the clash of resounding arms! Our brethren are already in the field! . . .

"Why stand we here idle? What is it that gentlemen wish? What would you have? Is life so dear, or peace so sweet as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty, or give me death! . . .

Thousand Rebels Have Surrendered Recently

MEXICO CITY, July 11.—(AP)—Reports to the war department from the military commander of the state of Jalisco today said rebel bands in various parts of the state totaling 1,000, had surrendered to the federales in the past few days.

Dispatches to Mexico City newspapers from Guadalajara said 150 rebels had attacked the town of Cocula, Jalisco, and had been repulsed by the police and volunteers leaving several dead and prisoners.

Wheat on Ground Was Not Damaged; Moving

DALLAS, July 11.—(AP)—Wheat stored on the ground in many places in Texas was not injured, and the wheat movement by rail has passed its peak in a large part of Texas, according to a report given out by the office of R. C. Andrews, of Dallas, district manager of the car service division of the American Railway association.

Freight cars still are being sent to Texas, the report said, and the movement to Galveston and Houston is increasing daily.

Another Attempt to Save Doctor Slayer

AUSTIN, July 11.—(AP)—Another attempt will be made today by H. S. Bonham of Beeville, attorney for Harry J. Leahy, sentenced to die in the electric chair at midnight Friday, to have Governor Moody commute the sentence to life imprisonment.

Bonham conferred with the chief executive last night, but Governor Moody announced it was his intention to refrain from interfering.

Leahy was convicted in Williamson county of the slaying of Dr. J. A. Ramsey of Mathis.

MODERN SERVICE STATION BE BUILT IN BUSINESS AREA

EXTENSIVE IMPROVEMENTS PLANNED FOR OLD DRANE AND M'KEE SITE

At an estimated expenditure of \$6,000, the filling station at Drane and McKee's garage, recently acquired by the Central Texas Refining company, will be converted into a modern equipped drive in station with sixty-five feet frontage on Main and Collin streets to be completely remodeled to give exit on either street.

The new station will be equipped with four gasoline pumps, a washing rack, greasing pit, and offices in the northwest corner of the area, the plans made by M. T. Horn, architect show.

The offices of Drane and McKee's garage will be moved from the front portion of the building to the rear annex to make room for the new station.

Work is expected to start on remodeling within the next two or three weeks.

BASEBALL BATS, big shipment just received. Professional bats now 75c, \$1, \$1.50. City Book store.

Cream Supper

There will be an ice cream supper at Bazette Saturday night, July 13th, benefit of the baseball team and school. Everybody invited.

Actors Association Suspends Members Taking Talkie Jobs

HOLLYWOOD, Cal., July 11.—(AP)—Suspension of five actors from the Actors' Equity association and the reinstatement of two others was announced today. While no statement was made as to the cause of the suspensions, it was understood they resulted from making contracts with talking motion picture producers without sanction of the organization.

Those suspended were Tully Marshall, Anders Randolph, Raymond Hatton, Louise Dresser and Henry Otto.

The action at a meeting of the association last night was interpreted to be the first move of equity in its demand that producers accept only contracts from paid up members of equity. Leading members of the industry here made a flat refusal of the demand, insisting open shop would continue.

Federal Forces Are Closing On Rebels

MEXICO CITY, July 11.—(AP)—General Lazaro Cardenas, military commander of the state of Michoacan, has informed the war department that his troops are closing in on a rebel band led by the priest, Jose Maria Martinez, and that they hope to force the insurgents to fight.

A band led by the priest, Francisco Del Rio, has surrendered to federales and has been granted amnesty, Gen. Cardenas reported.

DIVORCE SUIT IS CAUSE OF SHOOTING AUSTIN WEDNESDAY

AUSTIN, July 11.—(AP)—A divorce suit filed one week ago by Mrs. D. A. Bush, 47, against her husband, was held today by police to have caused the fatal shooting yesterday of Mrs. Bush's sister, Mrs. Otis White, and the serious wounding of the estranged woman. The shooting occurred at the Bush home.

D. A. Bush, claim agent and secretary of the local street railway company, was held without bond today on a charge of attempted murder in the wounding of his wife.

Beyond saying he "just had to do it," Bush refused to reveal any information to officers.

S. J. Lock, a neighbor, heard gunfire and rushed to the home to aid the two women, but both had been wounded when he arrived. Funeral services for Mrs. White will be held tomorrow.

Mission Pound Man Charged in Murder

McALLEN, July 11.—(AP)—An assault to murder charge against Ephraim Deckard, Mission pound master, will be changed to a murder charge following the death here of Clyde Latham, Oliver C. Aldrich, district attorney, said today.

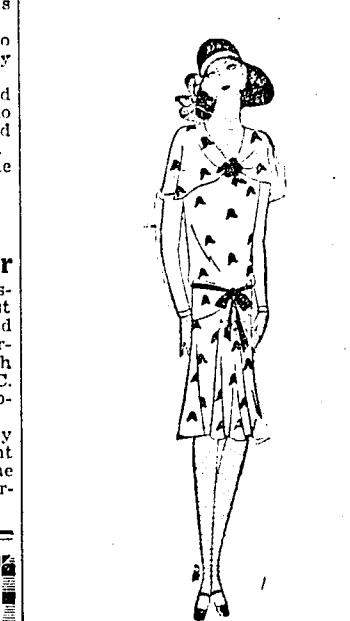

Latham was wounded Saturday at Mission following an argument over the price to be paid for the release of a dog. He died yesterday.

GOLD RIVET DRIVEN

NEW YORK, July 11.—(AP)—There's a golden rivet in a Wall street skyscraper. The first one driven for the new building of the Bank of the Manhattan company was of gold.

COLLEGE PROPOSAL REJECTED AT MEET TUESDAY MORNING

NEGOTIATIONS WITH WEST- MINSTER COLLEGE CON- CLUDED FINALLY

Negotiations for the removal of Westminster College from Tehuacana to Corsicana between officials of the college and the Methodist Protestant church which owns and operates the college were withdrawn by the directors of the local chamber of commerce and others interested in the securing of an institution of higher education Tuesday morning.

The motion was carried unanimously. A number of conferences between the directors and educational committee of the local organization and officials of the church and school have been held during the past several weeks and at a meeting held Friday of last week, it was agreed that a definite announcement would be made at Tuesday's meeting. After President Stevenson of the college had made the proposition that the church would be willing to consider, an executive session was entered with the church and college men absent. H. D. Fillers of the educational committee outlined the work done on the matter and President Stevenson outlined the proposition, that if a 50-acre site and a reasonable certainty that Corsicana would provide for the administration building, that the church would provide an endowment to guarantee \$10,000 annually toward the maintenance of the school. The proposed administration building would cost approximately \$140,000 according to plans submitted by H. O. Blanding, local architect. The church would also provide a girls' dormitory and other buildings.

Knife Wounds May Be Fatal to Negro

Leon Odell, negro, is in the Navarro County Hospital in a critical condition and not expected to survive from knife wounds received in an altercation on East Fifth avenue Tuesday night. The wounded negro received severe knife wounds in the neck and hospital attaches Wednesday morning indicated that the wounds might prove fatal. City police and county officers are investigating the case as well as the Navarro county grand jury. No arrests had been reported Wednesday afternoon.

Mrs. Pauline W. Drake Dies in Fort Worth

FORT WORTH, July 10.—Mrs. Pauline Whitehurst Drake, 23, of 417 Canola street, died Tuesday in a hospital. She is survived by her husband, Aubrey B. Drake, and a baby daughter, Sarah Van Drake. Other relatives are her mother, Mrs. J. A. Whitehurst of Fort Worth; four sisters, Miss Flora Whitehurst of Fort Worth, Mrs. Benton Veau of Fort Arthur, Mrs. Fred Muehl Haus of Dallas and Mrs. B. B. Byers of East Bernard, and a brother, John Whitehurst of Fort Worth.

Mrs. Drake was the daughter of the Rev. J. A. Whitehurst, during his lifetime a well-known Methodist clergyman.

W. L. Bailey of Angus spent Wednesday in the city attending to business.

C. A. Wright of Mildred was in the city Wednesday.

COURT HOUSE HAPPENINGS

District Court.
The grand jury was still in session Wednesday morning.

District Clerk's Office.
The following cases were filed: W. H. Watts et al vs. B. F. Watts et al, partition.
Frank Garcia vs. Pas Garcia, divorce.

Commissioners' Court.
The Navarro county commissioners' court began its work Wednesday morning as a board of equalization, conducting hearings for property owners on the changing of renditions of properties in the county during the time the commissioners were working as appraisers several weeks ago.

DIRECT AIR MAIL CONNECTIONS FOR CORSICANA NOW NEW DAYLIGHT SCHEDULE OF N. A. T. GIVES ADDED SERVICE

A direct air mail connection between Corsicana and points in northern, eastern and western sections of the United States is now available as the result of the addition of a daylight schedule between Dallas, Fort Worth, Tulsa and Kansas City on Contract Air Mail Route No. 3, operated by National Air Transport.

Air mail posted at Corsicana in time to be placed aboard the train leaving here at 5:25 a. m., will reach Dallas in time to make connection with the N. A. T. north-bound plane leaving there at 9:30 a. m. Postmaster P. Mayer said today. Air mail dispatched on this plane arrives at Kansas City at 2:20 p. m. Connection is made at Chicago for the overnight service to New York, enabling a letter leaving here one morning to be in New York and other eastern cities the next morning. Similar connections are made at Chicago for western and northwestern points.

The new daylight schedule of National Air Transport in the southwest provides air mail service to cities both on and off the direct air line and is the result of the postoffice department's desire to extend the service and make it available to additional communities.

The extent to which air mail is used by banks to cut down the time of clearing negotiable paper, by produce merchants and livestock dealers and commission men in obtaining detailed market reports and the sending of manifests and mailing checks to clients and producers, as well as scores of other business uses, has resulted in a general speeding up of business transactions.

The use of air mail for social correspondence has also shown a decided increase since it has been recognized by authorities on etiquette as being socially correct as well as providing faster mode of personal communication.

LARGE FLEET OF TRUCKS VISITED IN CORSICANA MONDAY

Twelve International trucks arrived in Corsicana Monday afternoon for short visit in their 2,000 mile demonstration tour of Texas. B. N. Roberts, assistant manager of International Harvester company, Dallas, is leading the caravan. While in Corsicana the drivers were the guests of Ivan Rosenberg, local agent for International trucks. They left for Keren and points east Tuesday morning at 8 o'clock.

Various styles and models of trucks make up the caravan. In the lead is the new International power of International, one of the five ton trucks. The body with two run-inners can be raised to a 42 degree angle by a hydraulic pump. A dump truck, with 2,000 pounds of gravel is driven up the grade.

Mr. Roberts stated they were running on a regular 32 miles per hour schedule, and arriving at each town on time. The tour will cover a period of 30 days. Mr. Roberts stated. The itinerary includes Nacogdoches, Sherman and Dallas. From Dallas every important town in West Texas will be visited, and given demonstrations.

J. C. Highnote, who lives in the bluest community visited in the city a short time Wednesday afternoon.

HE COULDN'T WORK FOR 5 LONG YEARS

"Sargon did more for me than all other medicines I ever took. I was dreadfully run-down, and suffered from constipation continually. My joints were so stiff I could not raise my arms. I would be exhausted if I walked a city block. I had not been able to do a day's work in five years. My system was full of poisons and I suffered from constipation and bilious headaches.

"I started taking Sargon and began improving at once and now my rheumatism is better than it has been in years. Sargon Soft Mass Pills overcame my constipation and the bilious headaches, and I feel wonderfully strengthened and helped in every way.

"I believe I will soon be able to get out an work with the best of them.

The above statement was made by E. P. Russell, 1318 Royal St., Dallas.

Sargon may be obtained in Corsicana from McPherson Drug Co., in Keren from Walker Drug store, in Rice from Rice Pharmacy, in Richland from Brown Drug Co., in Blooming Grove from Old Corner Drug store, and in Dawson from Lawless Drug Co. (Adv.)

On A Magic Bagdad Carpet Moderns Borne To Prophet What If Mystical Old Ezekiel, On The Banks of Tigris River, Could Say His Say To Modern Editors, Preachers, Teachers and Other Publicists?

By WILLIAM T. ELLIS

Everybody at some time or other plays the children's wistful game of "If" or "Supposin'?" Indulge me in it for a few minutes.

If I could gather all of the newspaper editors, the land under the lower Tigris river, with the Prophet Ezekiel to teach them this Sunday school lesson, something tremendous would result in the way of the world, and the public morality, of law-observance, and of democratic duty.

If I could put this same God-fearing Ezekiel as teacher over one big theological seminary, comprising all the preachers on this continent, he would lash them into such a fearsome sense of responsibility for man and to God that a trumpet sound of "Praise to the Lord" would soon peal from every pulpit. Swiftly the petty and clever literary dialectics would disappear from discourses; forgotten would be the pulpit-pounding doctrinal squabbles; and an overwhelming sense of the awesome sanctity of the power of proclamation of the Divine word would engulf every preacher.

If I could for a fortnight dismiss all college and high school classes, and take their teachers swiftly, on a magic carpet, to the vicinity of Bagdad; and if I could put all of these pedagogues to school to Ezekiel, that flaming prophet of the Exile, I am very sure that he would strip their souls bare of pettiness and of professionalism and of posing, and that he would make them see their life as a life of service for shaping young life. Many maddened hands would for the first time be wrung in realization that on them is blood.

If I could transport all law-makers and public officials across the desert to the ruins of Babylon, there to be addressed for only one hour by this statesman-prophet Ezekiel, they would return home with a new understanding of the Divine Providence which over-reaches all history; and of the Divine purpose of which they are but agents.

For no man or woman to whom has been given the place of leadership, or the teaching office, could ever again regard theirs as other than an awful responsibility, after hearing the scorching words of this rugged prophet, whose consciousness of the living God was the master concern of life.

The Scarceness of Leadership
Does it seem rather fantastic to picture this robed and sandaled prophet of olden times, a prophet of twenty-five hundred years ago as addressing our modern editors and preachers and teachers and public officials? Nevertheless, the sternness of Ezekiel is doing just this today. Literally millions of men and women, boys and girls, are being brought face to face, this very week, with his presentation of personal responsibility in such phrases as:

"If thou dost not speak to warn the wicked from his way, that wicked man shall die in his iniquity; but his blood will I require at thine hand. Nevertheless, if thou warn the wicked on his way, to turn from it; if he does not turn from his way, he shall die in his iniquity; but thou hast delivered thy soul."

One I heard a governor of North Carolina describe a harrowing night he had spent in deciding whether to relieve a man sentenced to die. The fate of a human life was at stake. The governor's dramatic picture was enough to deter one from accepting his public office. Yet that sort of responsibility cannot be dissociated from any form of leadership. Every man who is in anyway a leader of other persons must accept boldly the consequences. His concern should be faithfulness, rather than results. As the Song of Deborah reads, in the revised version,

"For that the leaders took the lead in Israel,
Bless ye Jehovah."

True leaders save society; weak or false or foolish leaders betray it.

Cause and Effect—Up to Date
Cause and harmony broke out in a community; but nobody thought to blame the long years of political corruption, debauched justice and official lawlessness which had preceded it.

A beautiful girl from a fine home slipped gradually into a life of shame; but few persons linked her tragic fate with the "do-as-you-please" teachings of her college professors, and their flouting of the race's tested standards of morality.

A youth of promise and personality drifted into dissipation, drunkenness and crime—and, incidentally, broke his parents' hearts. That the "respectable" citizens of his family circle, who had taught him to defy the prohibition law, and to look upon his own desires as transcending all other considerations, may have had any connection with the young man's fate was never mentioned.

Turned from his intended career as a minister of the Gospel because he lost his faith while sitting under a too-modern preacher, a young man became a cynic, a driftor, a ne'er-do-well, a suicide. On whose hands is his blood?

Because his "pink" professor scoffed at the Ten Commandments and the rights of property and the laws of the land as "capitalistic," one impressionable youth practiced these theories to the limit and became a gambler and a thief. Who was to blame?

So we might run through a long category of present-day illustrations of Ezekiel's heart-searching teachings concerning the responsibility of leadership. Is it any wonder that thoughtful persons are concerned over conditions wherein preachers and teachers and editors and officials and other leaders seem to shirk the responsibility of being God's watchmen on the walls of the world?

Webster's Most Solemn Thought
Often the story has been told of how a man once asked Daniel Webster what had been his greatest thought. At once the great statesman replied, "A consciousness of my responsibility to Almighty God." That is the conviction which makes public men prophets. It is the force which most nobles and greatest life Ezekiel ranks high amidst those whose sense of a di-

JUDGE LEDDY URGES INCREASE MEMBERS OF SUPREME COURT CONSTITUTIONAL AMEND- MENT WILL BE VOTED BY PEOPLE JULY 16

The following letter addressed to the people of Navarro county written by Judge C. A. Leddy favoring the constitutional amendment increasing the membership of the Supreme Court has been received by this paper with a request for publication.

On Tuesday, July 16th, there will be submitted to the consideration of the voters of Texas a Constitutional amendment which abolishes the present Commission of Appeals, consisting of six judges, and creates in lieu thereof a new Supreme Court consisting of nine members. The present Supreme Court was created in 1878 and has since that time consisted of three judges. Owing to the marvelous growth of the state and the development of its resources, there has been such a tremendous increase in litigation as to render it humanly impossible for three judges to decide such litigation. The Legislature could not create any additional judges of the Supreme Court because of the limitations in the present Constitution. It becomes absolutely necessary for the Supreme Court to have assistance in disposing of the great mass of litigation pending before it at one time, it being more than five years behind with its docket. Hence, the Legislature did the best thing that could be done under the circumstances by creating a Commission of Appeals consisting of six judges to aid the Supreme Court in taking care of the enormous number of appeals coming to it.

The difficulty with the present system is that the great majority of the opinions of the judges of the Commission of Appeals which are filling our law books are not authoritative so that the trial courts may follow them in the trial of cases as the Supreme Court has much business that it cannot take the time to approve every declaration in an opinion written by a judge of the Commission. This prevents the trial courts from following the trial courts cannot safely follow legal opinions that are printed in the law books. It results in confusion and causes many unnecessary reversals because of the uncertainty of the law.

In addition to this there is so much lost motion in a combination of the Supreme Court and the Commission of Appeals due to the fact that it is necessary for the Supreme Court to re-investigate to a certain extent all cases where opinions have been written by judges of the Commission of Appeals, in order to determine whether it desires to approve the results reached. We, therefore, have one court with a lack of authority and another court re-investigating all the cases decided by it. This involves double work which would be eliminated if we had a nine-member Supreme Court.

When Adam dove, and Eve span, Who was then the gentleman? —John Ball.

They are never alone that are accompanied with noble thoughts. —Sir, Philip, Sidney.

"The International Sunday School Lesson for July 14 is, 'Ezekiel Teaches Personal Responsibility.'—Ezekiel, 33:7-16.

District Ginners in Session; May Unite BUILDING SITE SELECTED MEXIA FOR POSTOFFICE

DALLAS, July 10.—(P)—Three districts of the Texas Cotton Ginners in convention here today considered consolidating their organizations to form a district unit which would match this senatorial district.

Leaders among the ginners explained the move was in line with suggestions of the state organization at its convention here in April that the organizations be reorganized to conform with senatorial districts.

A site has been purchased for the proposed new federal postoffice building in Mexia at a cost of \$15,300. The site purchased is 200 by 115 feet, being all but two lots of a block on Main street between McKinney and Paris.

Ferry K. Heath, assistant secretary of the treasury, notified W. D. Freeman, agent for owner of the property, of the government's acceptance of the offer made. Marcus McDonald, Mrs. T. T. Kindred and W. O. Colwell are the owners of the eight lots purchased by the government.

The building has been designed at a cost of \$25,000, made available immediately by Congress. Luther A. Johnson, who is in Mexia this week, says he hopes to have the amount increased to provide at least \$100,000 for the building exclusive of the cost of the lots.

The postoffice will be across Main street from the city hall recently constructed. A third corner at the Main-McKinney intersection is owned by the city and the old city hall on it is used for an armory and fire department.

Crop Conditions
Good Near Teague
TEAGUE, July 10.—(SP)—Crop conditions are very favorable at present time in this locality. Cotton is doing extremely well. Recent rains have proved very beneficial; however the rains came too late to be of material aid to corn. Cotton is thought to be on time at present. Boll weevils are doing some damage, but as yet farmers are not poisoning.

Speaker Predicts
End of Cotton in
Texas in Decade
DALLAS, July 10.—(P)—If Texas cotton continues to deteriorate during the next 10 years as it has in the past 10, there will be no such thing as the cotton business in this state. M. H. Reed, cotton broker of Austin, told ginners from the eleventh, twelfth and twenty-eighth districts of the Texas Cotton Ginners association here today. He urged the ginners to co-operate with the farmers in restoring the staple in Texas.

Other speakers included T. W. Davidson, Dallas, former lieutenant governor; C. D. Simmons, Austin, associate professor of business statistics at the University of Texas; T. J. Harrell, Fort Worth, president of the Texas Cottonseed Crushers association, and W. E. Green, San Antonio.

Woods Ouster Suit Finally Settled in Ellis County Court

WAXAHACHIE, July 10.—(Sp)—The ouster suit, transferred from Navarro county to Ellis county in 1928, brought by T. H. Benton, et al., vs. L. J. Woods, county attorney, has been disposed of in the 40th judicial district court here before Tom J. Ball, district judge, and the case has been settled and dismissed.

A statement and waiver was presented by the defendant that he waived and released all fees due him, or that might be due him directly or indirectly by reason of his having been county attorney of Navarro county, and that he makes no demand or claim therefor, and that he waives all objections or protests to the act of the district court of Navarro county in suspending him as county attorney of Navarro county, and to the act of the district judge of Ellis county in refusing to reinstate him as county attorney of Navarro county.

After hearing the motion and waiver of the defendant, District Judge Tom J. Ball ordered the case dismissed at the defendant's cost, and that judgment be entered against said defendant, L. J. Woods and in favor of said plaintiffs.

Will Discuss Poultry
Problems At Frost
Fall poultry problems will be discussed at a joint meeting of the Lone Cedar, Blue Ridge and Jones Ranch home demonstration clubs to be held in the Frost fair tabernacle Wednesday afternoon, July 17th, at 2 o'clock. Speakers for the occasion will be Hershel Weatherby, a graduate of Texas A. M. college, who will teach vocational agriculture in the Blooming Grove schools in the fall; Henry Gentry, farm demonstration agent, and W. C. Hoymier, poultry specialist with the Universal Milling company of Fort Worth.

Special emphasis will be placed on the proper care, feeding and culling of flocks for the fall by the speakers.

All those interested in poultry raising are extended a cordial invitation to attend the meeting.

Teague Deep Test
Is Down 4,000 Feet
TEAGUE, July 10.—(SP)—A depth of more than 4,000 feet has been reached on the Haley-Young oil test at Luna, seven miles east of Teague. A cessation in drilling operations has ensued for the past few days because of a temporary breakdown in machinery. Repairs have been made, and drilling is being pushed. Indications are encouraging.

WEDDING PRANK IS FATAL; YOUNG MAN DROWNED IN LAKE

JENKINS, Kas., July 10.—(P)—David Hughes, 23-year-old bridegroom, was drowned last night when a party of friends threw him in the lake after serenading him and his bride at their newly established home here.

Police arrested William Wright, 25, and James Farmer, 27, both married men with families, as the instigators of the fatal prank.

Hughes had wed about a month ago, but the marriage was not announced until this week. After the serenade the party threw him in the lake. He sank and did not come up.

Several of the serenaders dived, and the body was recovered. All efforts to revive him failed.

Mrs. C. E. Cavitt and two children left the city Wednesday morning for Groesbeck, where they will spend several days visiting friends and relatives.

MONEY SEEKERS TO GET FIRST CHANCE AT NEW CURRENCY

SMALLER BILLS WILL BE PUT IN CIRCULATION WEDNESDAY

WASHINGTON, July 9.—(AP)—The myriad ranks of money seekers tomorrow will become, at the same time, curiosity seekers. For with the opening of banks for business the nation-wide scramble will begin to acquire some of the new currency which, within a few months, will replace the long familiar, much larger paper money now in circulation.

The "curiosity demand" for the new currency, one third smaller than the old, is expected to keep up for several weeks. With about 912,000,000 pieces already printed, the treasury is prepared to meet the demand, but only to a limited extent because of the big problem of distribution and the necessity of avoiding waste by keeping the old currency in use as long as it is fit for exchange.

This change in currency, to be completed in about a year, is the first undertaken by the government since 1861, and is expected to reduce the cost of materials, printing, storage and distribution about \$1,500,000 a year.

A dollar has always been hard to get, and now with the advent of the new style currency, smaller and more numerous bills, it will be distributed throughout the nation on Wednesday, July 10, it will be harder to hold. Corsicana banks will receive practically 75,000 of the new currency for distribution, one local bank official estimated Tuesday.

The new bills to be put in circulation immediately are of five denominations—the one, two, five, ten and twenty dollar bills. The one dollar bill will have the usual portrait of George Washington, whom everybody knows was the first president of the United States. It has been said of George Washington that he was first in war, first in peace and first in the hearts of his countrymen; it might also be added, first in the pocket-books of the nation for the average wage earner will look at his portrait oftener than any other on the bills. The two-dollar bills, once obsolete, have been put in the new currency and will bear the engraving of Jefferson, Father of Democracy, on one side, and his home, Monticello, on the reverse.

Abraham Lincoln, great emancipator, who bore the name of "Honest Abe," and a picture of the Lincoln Memorial erected after the Civil War in his honor, will be on the five dollar bill.

Alexander Hamilton, first secretary of the treasury, and a picture of the treasury building in Washington will adorn the ten dollar bill.

The other bill that the Corsicans will get a chance to look at will be the twenty dollar bill, with Andrew Jackson, another famous president who bore the appellation "Old Hickory," adorning one side and the picture of the White House on the opposite.

The new bills included in the new currency are the \$50 note, with the picture of Ulysses S. Grant on one side and the national capitol on the other; the \$100 bill, with Benjamin Franklin and the independent Hall on its two sides.

The other bills of large denominations will have only one portrait, the other side occupied by the figure of the note represents. They are the \$500 bill with McKinley's portrait; the \$1,000, with Cleveland's; the \$5,000, with James Madison's; and the \$10,000 with the picture of Salmon P. Chase, secretary of the treasury under Lincoln.

The new currency will be placed in circulation gradually, as there are a large number of bills now in circulation that are practically new which must serve their allotted term before being withdrawn from circulation.

WATERMELON USED FOR MANY DISHES BY CIA STUDENTS

How many people have ever eaten watermelon any way but ice cold? For variety, try salads, cocktails and ices. These are very attractive and good, too. Here are some recipes for making various dishes in which watermelon is the principal ingredient.

Watermelon Cocktail
This is made by cutting ice cold watermelon in cubes or balls (use an apple corer and cut in slices). Chill. Some people like a little cinnamon sprinkled over it.

Watermelon and Orange
Watermelon and orange blend well together. Combine two cups watermelon and 1-3 cup orange cut in cubes.

Frozen Watermelon
Four cups watermelon picked fine with fork, two to four cups powdered sugar, two tablespoons non-alcoholic sherry, mix the ingredients and freeze.

The watermelon rind is sometimes used in pickles. This is very good if prepared properly. Peel the white part and cut into one inch squares or strips. Soak for twelve hours in alum water made by adding 2 teaspoons alum and one quart of water. Cook slowly in the alum water 15 minutes, drain, cover with ice and let stand two hours, dry. To three pounds of rind add one pound of sugar and 2 quarts of water. Boil twenty minutes and add any desired spices. Cook 1-2 hours. Put in jars and seal while hot.

Friends Mourn Death Former Corsicanan

It was with saddened hearts that former friends of Mrs. Aubrey E. Drake read of her death in Fort Worth in Wednesday's papers. Mrs. Drake was a resident of this city during her babyhood and childhood days, she having been the youngest member of the A. A. Whitehurst family. The late Rev. Whitehurst was the much loved pastor of the First Methodist church of this city. Deepest sympathy is extended the bereft mother and the four sisters and one brother.

KERENS

Rescued Seamen Clear Mystery of Foundered Ship

LONDON, July 9.—(AP)—With rescue of 18 survivors of the Swedish steamer Botte, wrecked near Yarmouth on a sand bank Saturday night, an explanation has been offered of a mysterious North Sea explosion which led to fear of a major sea disaster.

Dutch steamer took the officers and crew of the Botte off when it was seen she would founder. Later the steamer Arneberg in the same locality wireless Lloyd's here an unidentified ship had sunk nearby after an explosion.

Captain Borreson of the Botte after examining the Arneberg's reckoning's said he was convinced the explosion was due to the Botte's hatches blowing off when the tide came up and it slipped off the sand bank into deep water, long after the crew had been taken off her.

The crew of the Botte were landed at Hull today.

FAREWELL DINNER GIVEN
Mrs. Rosa Hart of Embouse entertained Wednesday evening with a lovely six o'clock dinner at her home, naming her sister-in-law, Mrs. E. E. Miller of Corsicana as honor guest, this being a farewell compliment to her, before her departure with Mr. Miller on their two weeks' automobile trip to West Texas points of interest.

Sub Disasters Have Taken Big Toll of Lives

NEW YORK, July 9.—(AP)—Submarine disasters have taken a heavy toll of life in the navies of the world. Some of the major accidents to undersea craft follow:

March 24, 1915.—United States submarine F-4 sunk in Honolulu Bay. Loss of life 21.

March 23, 1922.—British submarine sunk by another British sub off Gibraltar. Death toll 23.

August 21, 1923.—Japanese submarine foundered beside a dock at Kobe, Japan. Eighty-five dead.

Jan. 10, 1924.—British submarine L-24 sunk by British battleship off Portland, England. Death list 43.

March 19, 1924.—Japanese submarine sunk by Japanese battleship off Sasebo, Japan. Forty-nine dead.

Sept. 25, 1925.—United States submarine S-51 sunk off Block Island, R. I., by steamer City of Rome. Thirty-three dead.

Dec. 17, 1927.—United States submarine S-4 sunk off Provincetown, Mass., by coast guard cutter Faulding. Forty dead.

Aug. 6, 1928.—Italian submarine sunk in Adriatic sea in collision with destroyer. Thirty-one dead.

Corsicana Family Will Make Dallas Their New Home

It was with deepest regret that Corsicana bade farewell to Stanley E. Kerr and family, who left Thursday morning for Dallas to make their home. Mr. Kerr has been transferred there by the North Texas Gas company, with which he has been identified for a number of years.

Miss Hazel Cobb, Mrs. Kerr's sister, who have been here the

past two weeks, and Miss Elizabeth Kerr, left Wednesday, and Mr. and Mrs. Kerr and their children left Thursday morning. Corsicana's loss in giving up this excellent family will, no doubt, be Dallas' gain for a more talented family of children, with the mother included has seldom been known. The best wishes of their host of good friends go with them to their new home.

HARRIS DISCUSSES DAIRY FARMING AT MEETING OF BANKERS

COUNTY FAIR FOR NAVARRO COUNTY ALSO URGED BY BLOOMING GROVE MAN

The following is the complete text of the address by R. I. Harris, Blooming Grove banker, at the regular quarterly meeting of the Navarro County Bankers association:

While in Michigan I had the opportunity of visiting a number of farms and observing their methods of farming. I found that almost every farmer was a dairy farmer to some extent. All had a few cows and registered heifer calves and were devoting their entire time to dairying.

All the farmers raise alfalfa, clover, timothy and other hay crops adapted to that country and all raise practically all the feed they use in caring for their dairy cattle. They feed some cotton seed meal and linseed meal, which they have to buy.

Their method of farming is entirely different from ours. They plant cover crops of some kind on their lands after harvest time, which keeps the land from washing and the cover crop is used as fertilizer when the land is turned in the spring. I saw farmers turning clover and alfalfa from eight to 20 inches high, getting the land ready for corn, beans or potatoes. They raise lots of Irish potatoes and navy beans and in some localities the sugar beet industry is a big factor in their agricultural program.

In addition to the green crops turned under for fertilizer they try to spread a coat of barn manure over the land twice each year that is over both farms and fields. They call their pasture fields and the cultivated lands farms and man asked me how often we fertilized our farms and I told him that we had not commenced yet.

They claim to make from 50 to 75 bushels of corn per acre each year and with the fertility of soil here I have I am prepared to believe it.

On account of the severe cold winters it is necessary to keep the cattle in the barns for about six months. They usually put the cattle in the barns about the fifteenth or twentieth of October and turn them out to pasture about the fifteenth of May.

All have barns with concrete walls about four feet high and the cattle occupy the lower floor and the feed is stored above. They have a drive way built of concrete to the barns which resembles an approach to bridge in this country. The cattle are kept on concrete floors and are heavily bedded with straw and the droppings from the cattle make a lot of fertilizer which they use as fertilizer for the land. One of their big problems is getting rid of the fertilizer and it is an easy matter to keep up the soil fertility.

Some of the large breeding establishments have concrete reservoirs built outside of the barns to store the liquid manure and this is spread over the land with sprinklers like the sprinklers used on the streets in larger cities.

If the people in the north can make money out of dairy farming and raising pure bred cattle, we of the south ought to get rich at the same business, for I am convinced that cattle raised out in the open, that have access to pure air and sunshine twelve months in the year are bound to be better cattle than cattle that are housed in concrete barns for six months in the year.

The Okalands at Ann Arbor, Michigan, maintains a herd about the size of the Taft ranch herd at Corpus Christi and I told the manager, George Cooper that it took as much feed to run his herd as it would take for three years for the Taft ranch herd.

The larger dairy farmers sell whole milk price based on the percentage of butter fat and they have found that the pure bred jersey is the most economical cow to keep as she will produce more butter fat according to the amount of feed consumed and for that reason Michigan, Ohio, Indiana and many other northern states which have been breeding holsteins are fast turning to jerseys.

I found the same conditions in Canada. Mr. Duncan Bull told me that in 1927 he sold seven breeders foundation stock who had sold holsteins and turned to jerseys and in 1928 he sold fifteen new breeders foundation stock who had sold out their holsteins.

The small dairy farmers as a rule sell their sweet cream and use their skim milk for feeding dairy calves, pigs and chickens. They have good roads everywhere and the milk trucks make daily trips to all the farms and the farmers have an income every day in the year.

Over in Canada they have a produce called "Wild Moose Milk" which is very much in demand, but as I was over there to buy bulls, I did not have time to investigate that industry but I would like for the Navarro Bankers association to finance the trip and appoint me as a committee of one to go back to Canada and make a thorough investigation of that business and we might find it highly profitable to import a herd of wild moose, instead of registered jerseys.

With the number of cattle which they have in Michigan I was surprised to find the county agents all busy organizing calf clubs and keeping the boys and girls interested in the work. I found on most every farm the work was being carried on by the family and very little hired help being used, which seemed to indicate that they were doing something to keep their boys and girls interested in the farm work.

I think that is one place we are falling down on the job. We are not doing anything to keep our boys and girls interested in the farm work and until we commence organizing calf and pig clubs and other work among our boys and girls, we are not going to get very far with dairy farming.

Our county is several years behind some of our adjoining counties in this line of work. Take Hill and Ellis, both have several calf clubs actively at work and doing things in a big way and they are making progress in dairy farming. About two weeks ago I sold Mr. Martin, county agent of Hill county, a registered heifer calf for a club boy and he told me at the time that he had orders for six more calves.

We will never make any prog-

Hopewell Cemetery Association Picnic

All the members of the Hopewell Cemetery association, and everybody are invited to come to Hopewell cemetery on Friday, July 19th. Bring your lunch and spread in an old fashioned way under the beautiful oak trees, where the church stood years past. Ice cream and cold drinks will be sold for benefit of the cemetery fund. A business meeting will be held immediately after eating lunch. Bring your dues. Now, folks do your part. Come. You will enjoy mixing with old time T. M. FOUTY, President. ESTHER GOODWIN, Sec.-treas.

ress in Navarro county in dairy farming until we get to work along this line and get our boys and girls interested, for the man who has been raising cotton for 25 years is mighty hard to wean away from it, in fact the only way to do it is to starve him into a different line of farming.

I can't understand why other counties in Texas are going ahead with 4H club work and buying calves for their boys and girls and encouraging them to stay on the farm, unless it is because the bankers of Navarro county will not finance them in this work, and I don't think that is true, for I believe that any banker in Navarro county is far-sighted enough to see that it is good business to finance any worthy boy or girl to buy a registered calf or pig and get into club work.

In Michigan and Ohio they are very much interested in their fairs and shows and claim that the fairs do more to keep people interested in their purebred livestock than anything else. They have a number of parish shows in Michigan which is on the order of our community fairs and from their parish show which is held in connection with the Michigan State Fair which is one of the largest fairs in the United States. The premiums for the Michigan State Fair this year is \$125,000.

I met a farmer who lives near Flynt, Mich., who had never shown any of his cattle till last year. Mr. Dennison, fieldman for the American Jersey Cattle Club in looking over the country for some good show cattle visited this man and introduced him to show some of his cattle, and he won several premiums and sold one of his good cows for \$300, which he thought was an enormous price, but the purchaser took her to another parish show and won first again and sold the cow for \$1000. The second purchaser took this same cow to the big show at the Michigan State Fair and won first and champion on her and sold her for \$2500 to one of the leading breeders of the state. Had this good cow never been shown, the owner would never have known her real value. Now he is getting ready to show quite a number of his good cattle and no doubt that his herd has increased at least double its value. All brought about by the parish show. We have some very high class cattle in this county but the public will never hear of them unless we have some fairs and bring them out in competition with other good animals.

Some one has said that fairs mark the progress of our nation. The same is true of communities and counties. Fairs are a show window of what that particular community produces. It is easy to see at community fairs whether that particular section is practicing balanced farming or one crop farm methods. Community fairs properly conducted are educational and will do more to create and keep interest in pure seed, better poultry and better livestock than any known method.

One of the greatest needs for the advancement of diversified farming and breeding of purebred livestock in Navarro county is a live county fair and it is to be hoped that we may soon awaken to the opportunities we are missing and duty we owe to the agricultural and livestock interest of this county and start a movement to organize a permanent county fair.

Winter or Summer

Hot or Cold, with reasonable care the Purina Bulky Las and Purina Cow Chow solves the problem of milk production and feed for the farmer or dairyman. Simple as A B C all the elements of milk production are there contained in the proteins and carbohydrates of the feeds scientifically mixed and blended to produce the greatest flow of milk at a minimum of cost.

This feed stimulates the flow of milk, cows that are drying up, under the stimulus of this feed will pick up and give more milk. It's not harmful, it's just that they need to give milk, just as you would feed a brain worker different foods than a man that does manual labor. Come in and get our prices and let us help you with your problem of summer milk production.

POSTAL WORKERS HONOR POSTMASTER WITH BIG PICNIC

SURPRISE PARTY WAS GIVEN P. MAYER AT BAUM LODGE WEDNESDAY

Honoring P. Mayer, Corsicana postmaster, the clerks and carriers of the Corsicana postoffice staged a surprise picnic and chicken barbecue at Baum Lodge Wednesday evening, followed by several hours of bridge and forty-two.

Secret preparations for the entertainment had been completed without Mr. Mayer's knowledge, and he was unaware that he was to attend the feast until he was brought to the lodge. Mr. and Mrs. J. Y. Stewart and Mrs. Mayer had started out with him on what was presumably a trip to look at some "real estate."

Barbecued chicken was ably augmented by picnic lunches, and a real feast was spread for the carriers, clerks and their families and honor guests. Rev. A. M. Hendricks pronounced the invocation.

W. O. Allmon presided as toastmaster of the evening, and declared that the clerks and carriers had suffered the "domination" of their postmaster as long as they thought they really thought of him, and this was their opportunity.

Capt. John J. Garner spoke in behalf of the clerks. He declared that when the rumors were first received that Mr. Mayer was to be the new postmaster, there was some consternation as to what the "hard boiled fire chief" would do. Mr. Garner declared however, that Mr. Mayer had gone about his duties in a business like way, with the welfare of his employees constantly in mind, always ready to cooperate in every way possible. He asserted that the climax was reached recently when the postmaster

them out in competition with other good animals.

Some one has said that fairs mark the progress of our nation. The same is true of communities and counties. Fairs are a show window of what that particular community produces. It is easy to see at community fairs whether that particular section is practicing balanced farming or one crop farm methods. Community fairs properly conducted are educational and will do more to create and keep interest in pure seed, better poultry and better livestock than any known method.

One of the greatest needs for the advancement of diversified farming and breeding of purebred livestock in Navarro county is a live county fair and it is to be hoped that we may soon awaken to the opportunities we are missing and duty we owe to the agricultural and livestock interest of this county and start a movement to organize a permanent county fair.

had led the campaign to finance the convention of the clerks and carriers held here recently, and expressed the great appreciation of the clerks organization for Mr. Mayer.

E. E. Stark, representing the carriers, practically duplicated the thoughts behind Mr. Garner's remarks, and asserted that the employees of the postoffice knew that they had the best postmaster in the state of Texas, and that many of the visitors at the recent convention were convinced of the truth of the statement.

J. Y. Stewart, long time friend of the postmaster, was then introduced and paid additional tribute to the postmaster as a man and as an official.

A group of the carriers and clerks had arranged a special song in honor of the postmaster, and presented it during the evening.

In responding to the tributes, Mr. Mayer declared that he did not have the words to express his appreciation of the compliments extended him, but that he was sincerely grateful. He reaffirmed the fact that he was only a co-worker with the other employees, and asked their earnest cooperation. Mrs. Mayer was introduced to the postal force, and thanked the group for their entertainments and tributes.

Jim Roxburgh pronounced the benediction.

After the conclusion of the program, bridge and forty-two games furnished entertainment until late in the evening.

Road Location Raises Ire Thornton People

GROESBECK, July 11.—(SP)—Residents of Thornton have entered a vigorous protest to the new route of highway No. 14 from Groesbeck to Kosse, which the state proposes to run one and one-half miles from Thornton, while the present route runs through the town.

The road is to be changed to avert two railroad crossings, both considered very dangerous. Thornton people, in a hearing before the county commissioners, demand that the road either follow its old route or be closer to Thornton.

District Engineer Woodward said the present proposed route is not necessarily final.

Block Tax System Adopted By Mexia

MEXIA, July 11.—(SP)—A block system of tax assessment in which engineers will place a value on all property in the city of Mexia has been authorized by the city commission and the school board, acting jointly. It is estimated that enough property now escaping taxation will be discovered to pay the cost of the map, and that more equal taxation will result.

City Manager R. D. Morgan will have charge of preparation of the map.

LUTHER A. JOHNSON WARNS OF BRANCH BANK MOVEMENTS

TEXAS REPRESENTATIVE URGES UNIT BANKS TO COM- BAT CONSOLIDATIONS

The following interview with Congressman Luther Johnson, of this city, which appeared in a recent issue of American Banker, published in New York, will be of general interest in this section as the congressman discusses a question of vital importance to all banks.

The interview follows:
WASHINGTON—That a campaign has been started to ob-

tain nation-wide branch banking power for national banks, was the assertion made by Representative Johnson, of Corsicana, Texas, in a statement issued here on July 2. This campaign, he further declared, is backed by a powerful group of financial interests.

The proposal for chain banks, Representative Johnson said, threatens the existence of the banks in smaller cities and the establishment of such institutions, he added, would tend to reduce the wealth of small communities and concentrate that wealth in cities to a far greater extent than has been done by the operation of chain-store systems.

Fears Elimination of Small Banks

Mr. Johnson calls upon the banks in the smaller cities and towns of the country to combat this movement, saying further that the drive for branch banking would, if successful, ultimately mean the elimination of all banks except those in the larger cities. "Banks in other places would become mere branches of a large chain system;

they would be owned, operated and controlled by capitalists living in distant cities; the profits, instead of being distributed and invested in the communities where made, would go elsewhere; the only employees in these branches would be a clerical and subordinate force, with no power to make loans except on orders from some executive officer in a distant city.

"What the chain system of chain stores has meant in reducing the wealth of communities and concentrating it in the cities would be infinitely worse in chain banking; branch banking means chain banking; that is its logical result, and that is what is desired by its advocates.

Calls McFadden Act Opening Wedge.

"When congress passed the McFadden bill in 1927, which gave a limited right of branch banking to certain banks in some cities, where competing state banks had such right, there were those of us who voted against the bill, on the ground that it was the opening

wedge and that the next step would be to give this power generally to all banks everywhere.

"We so charged in the debate on the bill, but the proponents of the bill vigorously denied that such was contemplated or would ever be done, and declared that if such attempt was made they would oppose it; but within less than two years our prophecy is being fulfilled and the ardent champions of that bill have thrown off the mask and now declare that it was an emergency measure and a permanent measure should be passed giving this right to all banks everywhere.

"The ultimate and final effect of branch banking means the elimination of unit banks and the ownership of all banks by a few small groups. Monopoly, always dangerous, is fraught with extraordinary hazard when applied to the business of banking, which controls the credit of the country.

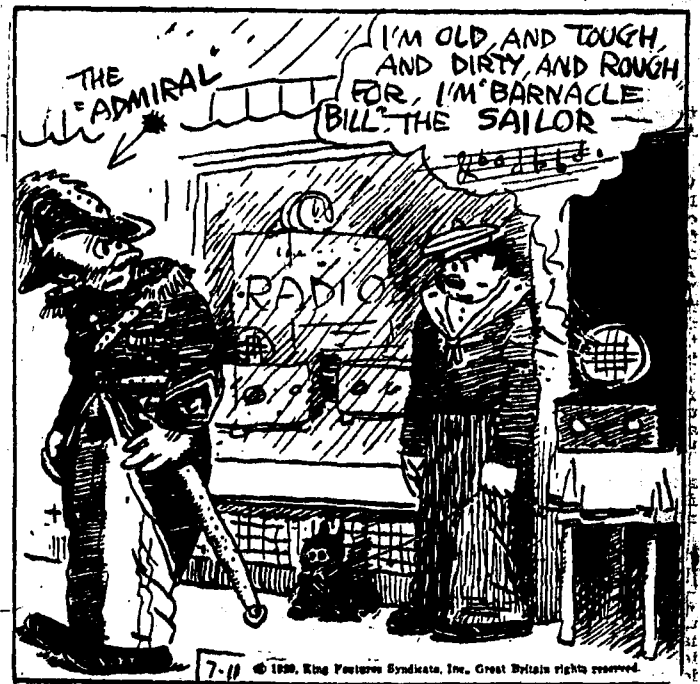

"Such a monopoly could and would dominate and control all business; it could mould and shape

Election Supplies Sent Out For Vote On Two Amendments

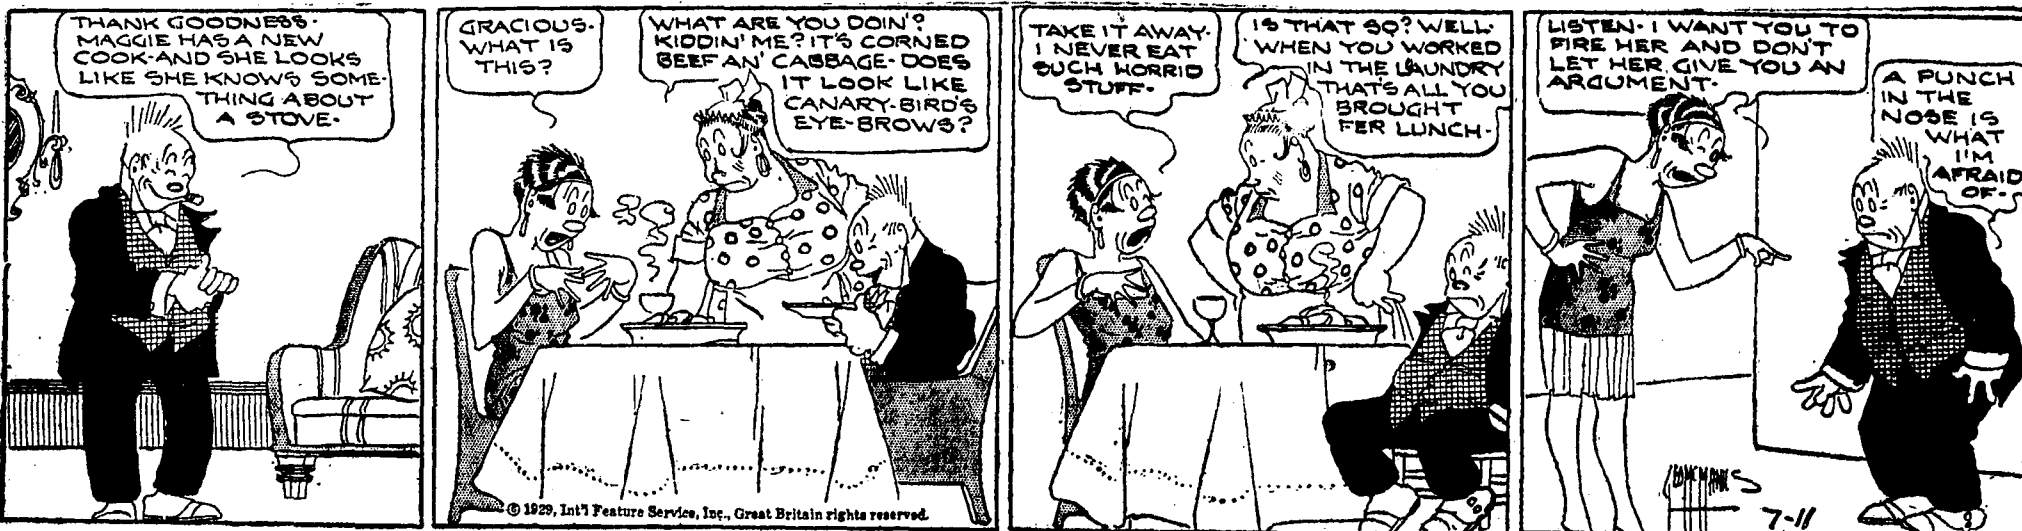

Election boxes and supplies are being delivered to the forty-eight voting precincts in Navarro county by the sheriff's department this week preparatory for the election to be held in Texas Tuesday, July 16, on two constitutional amendments.

One of the amendments is for the increasing of the salary of the governor of Texas from \$4,000 to \$10,000 per year and the other is to increase the members of the Texas Supreme Court from three to nine members. At the present time, there are two commissions of three members each which pass on cases and then the Supreme Court affirms the opinions handed down by the commissioners. It is hoped to raise the commissioners to full membership in the Court.
